DIRECTIONS FOR USE

STRAWBERRIES For aphids and red spider use 25 30 lbs per acre repeating against red spider 7 10 days later. Do not apply within [illegible] of harvest.
TOBACCO SEED BEDS Parathion Dust should be applied to seed beds with rotary hand dusters only. For the control of Flea beetles and Aphids Use 3 4 to 1 lb per 100 sq yd. When Flea beetles or Aphids first appear dust plants on forming early and severe infestations may require 2 or 3 treatments. Seed Bed For the control of green June beetle grubs use 2 lb per 100 sq yd.
FIELD Parathion dust should be applied in the field by power dusting equipment only for the control of Aphids, Spider Mites and Split worm use 10 to 25 lb per acre. Apply dust thoroughly to all parts of plant. Repeat if necessary. Extreme caution in handling parathion. Do not store or grow potatoes near tobacco. Do not apply within 5 days of priming or 15 days of cutting. Avoid plant juices coming in contact with the skin of those engaged in cutting or priming the crop.
