Conquer™

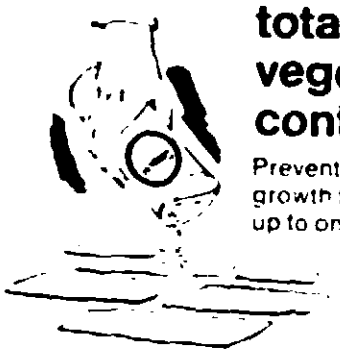
granular vegetation killer

9-8-75

100-574

For total vegetation control

Prevents plant growth for up to one year



Active Ingredients

[illegible]	[illegible]
[illegible]	[illegible]
[illegible]	[illegible]
[illegible]	[illegible]
[illegible]	[illegible]
Inert Ingredients	4.25%
Total	100.00%

*Equivalent to [illegible] as [illegible]

CAUTION:
Keep out of reach of children.

See additional caution statements on back of container

One pound covers up to 100 sq. ft.

Net Weight
One Pound

For total vegetation control around the home where no plant growth is desired as specified in label directions

Controls johnsongrass, bindweed and other hard-to-kill weeds. **Prevents plant growth for up to one year.**

Ready-to-Use
Conquer Granular Vegetation Killer is a nonselective product that can be applied before or after plant growth begins. Use for bare ground vegetation control in driveways, brick walks, paths, patios, along fences, parking areas, play areas, curbs around buildings, and under gravelled pathways where plant growth has come through these surfaces.

Directions for Use

Remove push-out portion of shaker cap. Rotate cap to cover opening with holes and distribute granules evenly over area to be treated. To control annual broadleaf weeds and grasses, apply [illegible] lb. per 100 sq. ft. For control of most perennial broadleaf weeds and grasses, apply [illegible] lb. per 50 sq. ft. Where deep rooted perennials are present, use the higher rate. The higher rates listed above should be used in areas having a long growing season or high rainfall. The higher rates will also provide longer residual control. To minimize lateral movement, sprinkle in lightly with a watering can immediately after application.

Use only in areas where complete control of all vegetation is desired. Conquer Granular Vegetation Killer should not be used on cultivated areas or ground that is to be cultivated in greenhouses or near the drip line of trees or shrubs. Do not use on slopes or inclined areas (apply only to level surfaces).

CAUTION:
Keep out of reach of children.

Harmful if swallowed. Avoid contamination of food and feed. Avoid inhalation of dust. Avoid contact with eyes, skin and clothing. Wash clothing after handling. Do not contaminate water intended for domestic or irrigation use. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Care should be taken to avoid its use where adjacent desirable trees, shrubs or plants may be injured as a result of leaching of the chemical through the soil.

Do not reuse container. Destroy when empty.

Store in a dry place.
