Hilo®

EAR MITE REMEDY for Cats

Effective in killing ear mites

CAUTION:
KEEP OUT OF REACH OF CHILDREN
Not for use on humans
Net Cont. ½ fl. oz (14.8 ml.)

CONTENTS: Each fluid ounce contains: Active Ingredients: Rotenone 0.25%, Other Cube Resins 0.50%, Inert Ingredients 99.25% (includes 2.5% Benzyl Alcohol)

EPA Reg. No. 1452-17
EPA Est. No. 4941 NY 1
Formula T.M.8
Distribution by:
HILO PRODUCTS DIV.,
NIP-CO MFG., INC.
Glenford, NY 12433 U.S.A.
Lot No. Exp. Date:

INDICATION: For treatment of ear mites

DIRECTIONS: Apply HILO EAR MITE REMEDY to outer ear canal. Massage ear to distribute solution into ear. Repeat every other day until condition is relieved. Symptoms of ear mite infestation are usually improved in 2 applications.

DIAGNOSIS: Ear mites normally cause a dry, dark, brown waxy exudate with crusts in the ears of dogs & cats. The mites are easily observed by placing some of the ear exudate on a dark surface and watching carefully for white specks walking away. DO NOT probe, swab or injure the delicate tissue of ear when removing crusts. Inflammed, watery, or blocked ear canals indicate a more serious condition which requires the services of a veterinarian.

STORAGE & DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

Hilo®
