EPA Reg. No. 2596-89 EPA Est. No. 5448-[illegible]-A

HARTZ 2 in 1® FLEA & TICK SPRAY FOR DOGS

● kills fleas ● kills ticks, including the Deer Tick, carrier of Lyme Disease ● kills lice when a problem ● fast acting ● unaffected by water ● kills insects which reduces incidence of itching and scratching

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

To kill fleas, ticks and lice, thereby reducing incidence of itching and scratching, hold container 6 to 10 inches from the animal and spray lightly over the entire body. Do not spray in eyes. For best penetration of spray to the skin, direct spray against the natural lay of the hair to cause fluffing of the coat.

Under normal circumstances, repeat spray once every few days until infestation is brought under control, then repeat as necessary. For more prolonged flea and tick control, the animal's bedding, quarters, and surrounding area should also be sprayed lightly until damp to help prevent reinfestation.

Storage and disposal: Do not contaminate water, food or feed by storage and disposal. Wrap empty container and put in trash collection.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Avoid inhalation of spray. Avoid spraying in eyes. Wash hands and exposed skin after use. It is not advisable to use this product or similar pesticides on puppies less than 6 weeks of age.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison Control Center immediately. DO NOT INDUCE VOMITING. Vomiting may cause aspiration hazard.

If in Eyes: Rinse eyes with plenty of water. Call a physician if irritation persists.
