Johnson wax

Raid®

FORMULA II

Flying Insect Killer

Clean, Pleasant Odor!

Kills Bugs Dead

WARNING: [illegible]

NET WEIGHT 12 [illegible] OZ

DIRECTIONS: SHAKE BEFORE USING

To spray. Hold container upright. Point valve [illegible] away from face and press button.

To kill flying insects: house flies, mosquitoes and gnats. With Raid there is no need to spray directly at flying insects—the mist in the air will kill them. Spray Raid in the air with a sweeping motion, keeping about 3 feet from interior walls, fabrics, furniture, until room is filled with mist. Keep room closed for 15 minutes. Don't waste Raid Flying Insect Spray—a little goes a long way.

To kill crawling insects: roaches, earwigs, sow bugs and spiders. Spray hiding places such as baseboards and floor boards, moist places, openings around sinks, drains and pipes, behind bookcases, cabinets and other storage areas hitting as many insects as possible.

Ants: Spray trails, nests, around window and sills and openings around pipes and baseboards where ants crawl, hitting as many as possible.

Spiders: Spray webs and places where spiders crawl. Direct short burst of spray on spiders and repeat as necessary.

Wasps: Applications should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary. Spray directly on stray wasps that enter buildings.

WARNING: FLAMMABLE! Contents under pressure. Do not use near fire, sparks or flame. Never puncture or throw container into fire. Never set container on stove, radiators or places where temperature may exceed 120°F, which may cause it to burst. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation. Do not remain in treated area. Ventilate the area after treatment is completed. Keep out of reach of children. Remove pets, bird [illegible] and [illegible] fish before spraying.

ACTIVE INGREDIENTS: [illegible]
