[FIRST AID AND ENVIRONMENTALHAZARDS]

[Keep Out of Reach of Children]
[CAUTION]

Precautionary Statements
Hazards to Humans and Domestic Animals [icon]
CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing.

FIRST AID [icon]

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
If swallowed: Call A poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. Call: 1-XXX-XXX-XXXX ***(number is available 24/7/365)***

Environmental Hazards [icon]
This product is toxic to aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treated area. Sweeping any product that lands on a driveway, sidewalk, or street, back into the treated area of the lawn will help to prevent run off to water bodies or drainage systems. Runoff and drift from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Do not clean equipment over hard surfaces or near storm drains.

Atrazine can travel (seep or leach) through soil and enter ground water which may be used as drinking water. Atrazine has been found in ground water. Users are advised not to apply Atrazine on sand and loamy soils where the water table (groundwater) is close to the surface and where these soils are very permeable; i.e., well drained. Your local agricultural agencies can provide further information on the type of soil in your area and the location of ground water.

[KEY PRODUCT FACTS]
[APPLICATION]
[HOW AND WHEN TO APPLY]
[Apply in late winter, spring, or fall]

OPTION 1 – DIRECTIONS FOR USE

DIRECTIONS FOR USE
It is violation of federal law to use this product in a manner inconsistent with its labeling.

Control
- Apply anytime weeds are actively growing. If complete control is not obtained a second treatment may be required 2 months after the first.
- [Apply in the Fall to control winter weeds such as henbit, chickweed, rabbit-tobacco, eveningprimrose.]
- Controls ***insert one or more weeds from following weed list*** [Controls weeds as listed above/below] ***or*** Kills/Controls listed weeds ***Note to PM: The weed list may appear elsewhere on the label and be referenced in the Directions for Use***

Black medic	Eveningprimrose	Red sorrel/sheep sorrel
Blue toadflax	Florida betony	Rescuegrass
Buckhorn	Florida pusley	Shepherd's purse
Burclover	Fragrant cudweed/rabbit-tobacco	Sowthistle
Carolina geranium/cranesbill	Henbit	Stinging nettle
Chickweed	Lippia/Matchweed	Venus lookingglass
Dandelion	Oxalis/Yellow woodsorrel	Wild mustard
Dichondra	Pepperweed/peppergrass	
Dollarweed/Pennywort	Purslane	

Reentry
- Do not allow people or pets to enter treatment areas until watering-in is complete and the surface is dry.

Restrictions
- Do not apply to centipede or carpetgrass lawns during the period of winter dormancy—approximately October 15 to March 15. This restriction does not apply to lawns in Florida]
- Do not apply to lawns or mixed lawns of bahiagrass, bermudagrass, bluegrass, fine fescue, bentgrass, ryegrass, tall fescue or dichondra because injury may occur.]
- Apply only when grass is dry.
- Do not apply this product in a way that will contact any person either directly or through drift. Keep people and pets out of area during application.
- Do not apply by hand or hand-held rotary devices such as hand-held rotary applicator.
- This product must be WATERED IN IMMEDIATELY after application. This product applies 2 lbs active ingredient per acre. Maximum of two applications per year.
- Do not use under trees, shrubs, bedding plants, flower or garden plants

Seeding/Sprigging.
Apply Scotts Bonus S after sprigging a new St. Augustine or zoysia lawn to prevent competition from germinating weeds. Water the new sprigs, allow the grass blades to dry, then make the application of Scotts Bonus S.
- Don't apply to newly seeded centipede and carpetgrass lawns until after the new grass has been mowed at least twice.
- Don't plant sprigs for one month, or sow new grass seed for six months following application of Scotts Bonus S.

OPTION 2 – DIRECTIONS FOR USE

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconstant with its labeling.

[[USE] RESTRICTIONS]

Don't apply to lawns or mixed lawns of bahiagrass, bermudagrass, bluegrass, fine fescue, bentgrass, ryegrass, tall fescue or dichondra because injury may occur. Don't apply to newly seeded centipede and carpetgrass lawns until after the new grass has been mowed at least twice. Don't plant sprigs for one month, or sow new grass seed for six months following application.] Don't apply to centipede or carpetgrass lawns during the period of winter dormancy – approximately October 15 to March 15 – with the exception of lawns in Florida.

Do not apply this product in a way that will contact any person either directly or through drift. Keep people and pets out of area during application. Do not allow people or pets to enter treatment areas until watering-in is complete and the surface is dry. Do not apply by hand or hand-held rotary devices such as hand-held rotary applicator. Do not use under trees, shrubs, bedding plants, flower or garden plants.

[INSTRUCTIONS]
Scotts Bonus S controls a wide range of lawn weeds, including broadleaf weeds and annual weeds commonly found in home lawns. In addition, a XX-X-X fertilizer provides a supply of plant food needed for growth.

- Apply only when grass is dry.
- This product must be WATERED IN IMMEDIATELY after application. This product applies 2 lbs active ingredient per acre. Maximum of two applications per year.

[CONTROL]

- Apply when weeds are actively growing. Controls weeds listed below. If complete control is not obtained, a second treatment maybe required 2 months after the first.
- [Apply in the Fall to control winter weeds such as henbit, chickweed, rabbit-tobacco, eveningprimrose.]

REENTRY

- People and pets may re-enter treated area after product is watered-in and surface is dry

[SPRIGGING]

- Apply after sprigging a new St. Augustine or zoysia lawn to prevent competition from germinating weeds. Water the new sprigs, allow the grass blades to dry, then make the application.

[Weeds Controlled:] ***Note to PM: The weed list may appear elsewhere on the label and be referenced in the Directions for Use***

- Kills/Controls listed weeds ***or*** Kills weeds including ***insert weeds from weed list here***

STORAGE AND DISPOSAL [icon]

[PESTICIDE] STORAGE: Store in a clean, dry place. Reseal opened bag [by folding top down and securing].
[PESTICIDE CONTAINER] DISPOSAL:
Non-refillable container. Do not reuse or refill this container.
If empty: Place in trash or offer for recycling if available.
If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

SPREADER SETTING INFORMATION Note to PM: The following are optional formats to present spreader setting information. Appropriate spreader settings, spreader brand names, ~~and~~ coverage will be inserted on Final Printed Label

This package applies [3.45] lbs of product per 1,000 sq ft.

Spreading Tips

[Scotts recommends the PF Spreader to receive the maximum value from Scotts Bonus S.]
[For best results, use a Scotts spreader:]

Scotts Drop:
[Mow lawn first if grass is tall enough to touch the bottom of the spreader. First apply two header strips. Then operate spreader the longest way of the lawn. Overlap wheel marks to insure uniform feeding. Shut off spreader when you have reached the header strips or stopped.]
(ILLUS.)

Scotts EasyGreen™/ *insert brand name* Rotary:
[Shut off spreader anytime you stop. For complete coverage make each pass about 30 inches from the previous one so some overlapping occurs. Avoid applying this product on flower, vegetable and shrub plantings.]
(ILLUS.)

Scotts SpeedyGreen™/ *insert brand name* Rotary:
[Shut off spreader anytime you stop. For complete coverage make each pass about five feet from the previous one so some overlapping occurs. Avoid applying this product on flower, vegetable and shrub plantings.]
(ILLUS.)

Spreader Setting (covers X,XXX sq ft)

Spreader	Spreader Setting
Scotts Drop Spreader	X
Scotts EasyGreen® / ***insert brand name***	~~XX~~
Scotts SpeedyGreen®/ ***insert brand name***	X

For even application walk at a steady pace slightly overlapping each pass.
Scotts/***Insert brand name*** Drop Spreaders: Align hopper arrow with previous wheel track.
Scotts /***insert brand name*** Broadcast/Rotary Spreaders: Line up each pass approximately 5 ft. from wheel track.

(Non-Scotts spreader settings are approximate. You may need to adjust for proper coverage.)

[DESIRABLE PLANTS: DO NOT APPLY ON OR UNDER THE BRANCH SPREAD (ROOTZONE) OF TREES, SHRUBS, BEDDING PLANTS, FLOWERS, OR GARDEN PLANTS, PARTICULARLY IN COMPACT, SLOWLY DRAINING SOILS IN THE DALLAS-FT WORTH AREAS.]

[Spreader]	Spreader Setting REGULAR RATE covers X,XXX sq. ft.	DIRECTIONS
Scotts Drop Spreaders	X	Mow lawn first; apply 2 header strips; apply longest direction of lawn, overlapping wheel marks.
Scotts EasyGreen® / ***insert brand name*** Rotary	X	Make each pass about XX inches from previous pass to overlap spread width.
Scotts SpeedyGreen® / ***insert brand name*** Rotary	X	Make each pass about X feet from previous pass to overlap spread width.

[Lawncare Information:] [Water Smart®] Tips for Lawncare Success:

- Feed regularly for your best lawn – Regular feedings of Scotts [Turf Builder] [insert alternate brand/product name] will help build a lawn you and your family can enjoy. Scotts [Turf Builder] [insert alternate brand/product name] provides the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought and family activity.
- Mow your lawn high. Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively.
- Leave the grass clippings on your lawn. This recycles the plant nutrients back into the soil.
- Conserve water. Your lawn will begin to wilt when water is needed. As much as possible, take advantage of nature's sprinkler and rely on the rain to water your lawn.

[art] one annual feeding [art] 2-3 annual feedings [art] 4 annual feedings

Tips for Lawncare Success:

[icon: granules falling on grass] **Feed Regularly**
Regular feedings provide the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought & family activity

Benefits of Multiple Feedings [art] one annual feeding [art] 2-3 annual feedings [art] 4 annual feedings

[icon: lawn mower] **Mow and Leave the Grass Clippings on Your Lawn**

Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively. Grass clippings recycle the plant nutrients back into the soil.

[Water Smart™ logo][Water Smart Makes The Most Of Every Drop™] **Conserve Water** Well-fed lawns are more efficient at using available water. Feeding with Scotts [fertilizer/lawn food] helps grow/build a thick lawn with more roots to better absorb water and nutrients than an unfed lawn. This helps protect your lawn against heat drought and other stresses. Remember your lawn will begin to wilt when water is needed. As much as possible take advantage of nature's sprinkler and rely on the rain to water your lawn.

What to expect
Weeds will be dead/killed within 6 weeks and your lawn will be greener in 7 days

Controls and prevents weeds while feeding your lawn. Scotts Bonus S gives you a better lawn. That's because each small particle delivers weed control for complete coverage. And Scotts Bonus S feeds your lawn with Scotts Trionized® formula to help fill-in and crowd out new weeds.

Scotts Bonus S provides even greening. Each particle of Scotts Bonus S contains nitrogen, phosphorus and potassium. This means that each grass plant receives the feeding it needs so your lawn will grow uniformly thick and green.

Scotts Bonus S stimulates steady grass growth. Typical all-soluble fertilizers can cause surge growth. When you mow grass that has grown too fast and too tall, you weaken the grass plant by "scalping." With Scotts Bonus S you have less mowing and less chance of scalping when you mow.

Scotts & Your Environment [art]
We care. Scotts products are designed with care to grow thicker, greener lawns.
A Green Lawn Is A Good Lawn. A healthy lawn can clean the air, produce oxygen and prevent runoff and soil erosion.
You can make a difference. Help keep our water resources clean. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk or street back on to your lawn.

Scotts Bonus S provides up to 2 months of greening. The nitrogen in Scotts Bonus S is time-released to help your lawn grow thick and green for up to 2 months.

Coverage
Treats and fertilizes X,XXX sq. ft.

How much is enough?
To determine the square footage of your lawn, walk the length and width of your lawn; one average pace equals about 3 feet. Multiply the length of the lawn by the width of the lawn. This equals the area of your lawn in measure square areas, then add the figures together to reach your total lawn size.

2-MONTH PERIOD
(ILLUS.)
STEADY GROWTH
Scotts Bonus S

A well-maintained lawn provides environmental benefits as well as an attractive and pleasant setting for your home. Healthy grass takes carbon dioxide and pollutants from the air while creating oxygen; it traps dust and prevents erosion; and it reduces the heat, noise, and glare of modern urban areas while providing a safer recreation area.

The timed-release nitrogen in Scotts Bonus S weed-and-feed is designed to be absorbed by the grass plants slowly and steadily, to build thick turf that helps prevent runoff and leaching into groundwater.

SEASONAL PRODUCT APPLICATION OPTIONS

Optional Product Program Information
[[Scotts] Recommended Annual Feeding/Lawn Care Program]
[Plan your feeding schedule. Chose the right product for your lawn.]
[Any Season - Apply any season if weeds or bugs are not a problem: Scotts® [Southern] [Super]Turf Builder® Lawn Fertilizer] [artwork]***/ insert brand name***
[Early Spring February-April - If you have weeds/To kill weeds: Scotts® [Super] Scotts Bonus S Southern Weed & Feed] [artwork] ***/ insert brand name***
[Late Spring April-June - If weed or bugs are not a problem: Scotts® [Southern] [Super]Turf Builder® Lawn Fertilizer] [artwork] ***/ insert brand name***
[Summer June-August - Scotts® [Southern] [Super] Turf Builder® Lawn Fertilizer. If you have bugs/To kill bugs: Scotts® [Super] Turf Builder® with SummerGuard®] [artwork] ***/ insert brand name***
[Fall September – November - Scotts® [Super] Turf Builder® WinterGuard®] [artwork] ***/ insert brand name***

Scotts Recommended feeding routine

Plan your feeding routine with Scotts Turf Builder Lawn food.

[icon] [Early spring]
[An early spring feeding helps grass get going after its initial green up. Your should feed around the first time you mow your grass.]

[icon][late spring]
[Feeding now prepares grass for summer by making more blades on top and building deep roots below.]

[icon] [summer]
[A summer feeding provides grass the nutrients they need to thrive during the summer months.

[icon][early fall]
[Feeding now helps grass store nutrients to deal with the stress of the winter months.

SCOTTS ADVANTAGE® PARTICLE TECHNOLOGY

The Scotts Difference®
Perfect Particle™ Technology
(art: particle with NPK)

Every particle of Scotts Bonus S ® contains Scotts patented timed-release nitrogen plus phosphorus, potassium, and weed control (see back for details).

The Scotts Difference ®

Scotts patented Perfect Particle™ Technology is available only in Scotts® products.

Uniform proportions of the major nutrients – timed-release nitrogen plus phosphorus and potassium – and weed control are bonded together in every Bonus S particle, so that they are distributed evenly across the entire lawn, eliminating hit-or-miss feeding and weeding. And the time-released nitrogen feeds your lawn without burning, and steadily for up to 2 months. Because of Scotts' patented time-released nitrogen, you won't get the rapid surge growth. With regular mowing, you will have fewer clippings and may not even have to bag your clippings.

With Scotts Bonus S you can be assured that every particle contains time-released nitrogen, plus the other primary nutrients and weed control.

(photo: SBS particles)
All-in-One Particles®

- Scotts Bonus S granules are consistent in size and shape
- This gives consistent distribution of particles – and nutrients and weed control – throughout the lawn

(photo: SBS pattern)
All-in-One Particles®

- Scotts Bonus S particles deliver the same ratio of nitrogen, phosphorus, and potassium (plus weed control) to every treated square inch of turf
- Result: even, consistent greening and thickening of your lawn, plus better weed control

-OR-

The Scotts Advantage®: All-in-One Particles®*

Your lawn requires essential nutrients to thrive. Every Scotts Bonus S® particle contains nitrogen, phosphorus, potassium, and weed killer, allowing Scotts to evenly disperse the appropriate ration of nutrients and weed control to your whole lawn. Only Scotts All-in-One® particles provide consistent feeding to every square inch of turf for a green, thick, strong lawn.

- No filler
- All Food and Weed Fighting Power

*All-in-One = nitrogen, phosphorus, potassium and the weed killer ingredient contained in every particle

(ILLUS.)
All-in-One Particles®

- Each All-in-One® particle contains essential nutrients and weed control ingredient

Evenly dispersed particles provide more consistent feeding and weed control for a green, thick, strong lawn.

-OR-

The Scotts Advantage®

Each of Scotts All-in-One Particles®* contains the guaranteed feeding nutrients and the weed control ingredients to provide consistent feeding and weed control to every treated square inch of your lawn. The result: A thick, green lawn without burning. Guaranteed.

- All-in-One Particles = nitrogen, phosphorous, potassium and weed control contained in every particle.
