Subject: **Notice of Termination for NPDES General Permit for Remediation Activity Discharges in Massachusetts (NPDES Permit No. MAG910000)**
Authorization No. MAG910717
Tennessee Gas Pipeline Company, L.L.C.
Connecticut Expansion Project

Dear Ms. Little:

Tennessee Gas Pipeline Company, L.L.C. ("Tennessee") has been issued a General Permit for Remediation Activity Discharges ("General Permit", NPDES Permit No. MAG910000) for the Connecticut Expansion Project ("Project"). The U.S. Environmental Protection Agency ("USEPA") granted Tennessee authorization to discharge under the General Permit on September 21, 2017 (Authorization No. 910717) for the Station 261 portion of the Project, in Agawam, MA. As of this writing, and in compliance with United States Department of Transportation regulations 49 CFR Part 192 specifications, Tennessee has successfully conducted hydrostatic testing and completed construction on the 861 feet of piping contained within Station 261.

Station 261 – No. MAG 910717

As previously discussed, on November 27, 2017, Tennessee was informed by its contractor that, on November 20, 2017, the contractor discharged to the ground within the Station 261 yard in Agawam, Massachusetts the approximately 16,500 gallons of water sourced from a municipal hydrant located on Suffield Street in Agawam that was used to hydrostatically test the new piping within Station 261. According to Tennessee's contractor, the water was gravity discharged through a filter bag into a vegetated upland area and did not enter waterbodies or wetlands.

All discharges at Station 261 contemplated under Authorization No. 910717 have been permanently terminated. In accordance with Section 5.2 of the General Permit, Tennessee is hereby submitting a Notice of Termination for the Station 261 portion of the Project.

Thank you for your attention to this Notices of Termination and please do not hesitate to contact me at Brian_Benito@kindermorgan.com or 860-763-6052 should you require any additional information or have any questions.

Respectively,

Brian M. Benito, Jr.
Environmental Project Manager
Tennessee Gas Pipeline Company, L.L.C.

Notice of Termination – Station 261

II. Suggested Format for the Remediation General Permit Notice of Termination (NOT)

A. General site information

1. NPDES permit number assigned by EPA: MAG910717			
2. Name of site: Connecticut Expansion Project, Station 261	Site address: 1615 Suffield Street Street:		
	City: Agawam	State: MA	Zip: 01001
3. Site owner Tennessee Gas Pipeline Company, LLC	Contact Person: Brian M. Benito, Jr.		
	Telephone: 860-763-6052	Email: brian_benito@kindermorgan.com	
	Mailing address: 8 Anngina Drive Street:		
	City: Enfield	State: CT	Zip: 06082
4. Site operator, if different than owner Same	Contact Person:		
	Telephone:	Email:	
	Mailing address: Street:		
	City:	State:	Zip:
5. Discharge identification: Hydrostatic Test Discharge	Discharge location: 42.033411,-72.632644	Receiving water(s): Unnammed tributary to Four Mile Brook	

B. Discharge Information

1. All discharges authorized under the NPDES permit number listed in Part A, above have been permanently terminated.			Check one: Yes ■ No ☐
2. The reason(s) for discharge termination: Tennessee was informed by its contractor that, on November 20, 2017, the contractor discharged to the ground within the Station 261 yard in Agawam, Massachusetts the approximately 16,500 gallons of water that was used to hydrostatically test the new piping within Station 261. According to Tennessee's contractor, the water was gravity discharged through a filter bag into a vegetated upland area and did not enter waterbodies or wetlands			
3. Initiation Date of Discharge(s)	Termination Date of Discharge(s)	Frequency of Discharge(s)	Average effluent flow
11/20/2017	11/20/2017	N/A	N/A
4. A summary of all monitoring results are attached in accordance with Appendix VIII of the RGP.			Check one: Yes☐ No■

C. Certification requirement

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I have no personal knowledge that the information submitted is other than true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

I certify under penalty of law that all discharges from the identified site that are authorized by the Remediation General Permit (RGP) have been terminated.

Notification has been provided to the appropriate State.	Check one: Yes ■ No ☐
Notification has been provided to the municipality in which the discharge is located, including a copy of this NOT, if requested.	Check one: Yes ■ No ☐
Notification has been provided to the owner of a private or municipal storm sewer system, if such system is used for site discharges, including a copy of this NOT, if requested.	Check one: Yes ☐ No ☐ NA ■
