Mark, Danielle,

I also confirmed with ISO NE that Merrimack, Schiller and Newington all have Capacity Supply Obligations (CSO's) through May 2021. That doesn't necessarily mean that they will commit to not retiring until then, but they do have the ability to sit still and receive capacity payments until then. We will find out next month whether they have CSO's for the June 2021 – May 2022 period.

Subject: FW: PSNH - Granite Shore Power NPDES Permit Transfer

Hi folks –
FYI – Eversource/PSNH closed on its sale of the Merrimack Station, Schiller Station and Newington Station power plants to "Granite Shore Power LLC." See the attached letter notifying us of the sale and asking for NPDES permit modifications to reflect the new ower/operators. We have been coordinating on this with the companies and David's shop will address the minor modification requests.

- Mark

Ms. Hamjian and Mr. Stein –

I have enclosed an electronic version of the notification of closing of the sale of the PSNH Merrimack Station, Newington Station and Schiller Station and documentation of transfer of ownership of those facilities.

Thank you for your efforts and those of your staff as this divestiture and acquisition process unfolded over the past several months.

Dave
