Dear Anna Krasko, Nov. 6,

This is in reference to the Woonasquatucket River proposed clean up Plan.
I am a resident at 770 Manton Ave. adjacent to Stop & Shop Mkt, for over 40 years.
I attended a meeting 2 years ago at St. Thomas Church basement when this situation started. I requested a test of the area & water from behind the Mkt. & including behind my property.
I was never informed of results.
Due to short notice I wasn't able to attend Nov. meeting at N. Prov.
If & when there is going to be a clean up of the river & strongly feel as a taxpayer & the danger to my health & environment attention should also be focused in my area too.
I have children & grandchildren who play & picnic in my back yard & it worries me.

My appreciation,
Ann McGowan
