PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: May be fatal if swallowed. May be absorbed through skin. May be injurious if inhaled and skin. This product is corrosive to the eye.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish, birds and other wildlife. Birds and other wildlife in treated areas may be killed. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL AND CHEMICAL HAZARDS

Do not take internally. Do not get on skin or in eyes. Do not smoke while using. Wash thoroughly after handling. Wash contaminated clothing before reuse. Flush contaminated eyes with plenty of water and get medical attention. Avoid breathing spray mist or vapors. Do not apply in residential gardens or other plantings to be used for food purposes. Keep away from food, feed, and domestic water supplies. Empty container completely. DO NOT USE, POUR, SPILL. STORE NEAR HEAT OR OPEN FLAME. Handle concentrate in a ventilated area.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Store in original container until used. Do not store, use or spill near heat or flame. Store out of reach of children and domestic animals. Do not contaminate water, food or feed by storage or disposal.

DISPOSAL: Do not re-use empty container. Rinse thoroughly before discarding in trash. Secure, tear original container in several places or puncture and discard in trash.

FOR INDIVIDUAL FIRE ANT MOUNDS: Apply DURSBAN 1L as a drench. Diluted at the rate of 3 fl. oz. (100 ml) per 4 gallons of water. Gently pour one a total of 1 gallon of diluted emulsion over the surface of each mound using a gentle spray (such as a sprinkling can). Thoroughly wet mound and surrounding areas to a 4 ft. diameter (12 sq. ft.). For best results, apply in cool weather, 65-80° F, in the early morning or late evening hours. Treat new mounds as they appear. Pressurized sprays may disturb the ants and cause migration, reducing product effectiveness.

FOR USE ON TURF: Use DURSBAN 1L Lawn and Ornamental Plant Insecticide to control chinch bugs, sod webworms, lawn moths, armyworms, brown dog ticks, ants, crickets, cutworms, earwigs, fleas and grasshoppers infesting home lawns and other ornamental and recreational turf grass areas. Mix DURSBAN 1L Lawn and Ornamental Plant Insecticide with water according to directions given in the following table and apply as a fine or coarse spray using a low pressure sprayer such as a knapsack-type hose-end applicator or other similar equipment. For best results, the lawn should be moist at time of application and care should be taken to cover the area uniform coverage of pest infested areas. Spray when pests first appear, repeat when needed.

DOSAGE AND DILUTIONS FOR USE ON TURF

Area To be Treated	Amount of DURSBAN 1L Lawn and Ornamental Plant Insecticide	Dilute With Water To Make
