DOG-AWAY

DOG REPELLENT

OUTDOOR USE

Keeps Dogs away from treated surfaces

DIRECTIONS: Spray from a distance of approximately 12 inches on dogs scent post locations where dogs void which attract other dogs such as garbage cans, shrubs, light posts, flowers, garden furniture, fences. For tender flowers and plants, mist the ground around them but not directly on them.

For more effective results, spray folded paper towel or cloth and hang on scent posts. Supplement Dog-Away treatments with verbal scolding whenever possible.

Repeat applications daily until dogs habits are broken.
