Subject: Notification per PRN 98-10 – Adding optional label language.
Product Name: Turf Fertilizer Plus Trimec Ester Weed Control
EPA Registration Number: 961-415
Application Date: January 25, 2016
Decision Number: 513462

Dear Ms. Covert:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you have any questions, you may contact Grant Rowland at 703-347-0254 or via email at Rowland.Grant@epa.gov.

Sincerely,

Kathryn V. Montague

NOTIFICATION

961-415

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

04/12/2016

ACTIVE INGREDIENTS:

2,4-D, 2-ethylhexyl ester ….	1.108%
Mecoprop-p acid	0.167%
Dicamba acid ....….....	0.071%
OTHER INGREDIENTS:	98.654%
TOTAL	100.000%

THIS PRODUCT CONTAINS:

14.70 lb 2,4-dichlorophenoxyacetic acid equivalent per ton or 0.735%. CAS 1928-43-4.
3.34 lb (+)-(R)-2-(2-methyl-4-chlorophenoxy) propionic acid equivalent per ton or 0.167%. CAS 16484-77-8.
1.42 lb 3,6-dichloro-o-anisic acid equivalent per ton or 0.071%. CAS 1918-00-9

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

First Aid	
If in eyes:	• Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For Emergency Medical Treatment Information call (888)208-1368.	

Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the [lawn or garden] will help to prevent run off to water bodies or drainage systems.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- Do not apply this product in a way that will contact any person or pet either directly or through drift.
- This product is for residential use.
- Do not allow people (other than applicator) or pets on treatment area during treatment. Do not enter treatment area until dust has settled.

Optional Heading:] [INSTRUCTIONS] [Use Instructions] [Application Directions] [Application Instructions]

TURF Fertilizer Plus Trimec Ester Weed Control contains Trimec® Herbicide. Trimec® controls a wide range of lawn weeds, including dandelion, chickweed, plantain, henbit, spurge and many other listed weeds commonly found in home lawns. In addition, a xx-xx-xx fertilizer provides a supply of lawn food. Possible retreatment may be necessary if (a) the lawn is heavily overrun by weeds or, (b) if adverse low moisture conditions prevail and weeds are in a state of

poor growth. A second application may be made after 30 days. Treated areas may be seeded 3 weeks after application.

USE PRECAUTIONS AND RESTRICTIONS:
Do not use on dichondra, carpetgrass, 'Floratam' St. Augustinegrass, creeping bentgrass, or turfgrass where desirable clovers are present.

Do not apply this product to newly seeded grasses until well-established or after the second or third mowing.

Do not use this product on flowers, vegetables, groundcovers, gardens or landscape plantings including shrubs and trees. Do not exceed specified dosage for any area and do not apply this product within the dripline of or over surface roots of trees, shrubs, and other ornamentals.

Reseeding or overseeding areas may occur three (3) weeks after the application of this product.

Do not use this product on or near desirable plants and avoid spreading granules onto exposed root systems or adventitious shoots (rhizomes) within the drip line of the roots of desirable trees and shrubs, since injury may result.

Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when windy. Apply this product directly to your lawn, and sweep any product landing on the driveway, sidewalk, gutter, or street back onto the treated area. To prevent product run-off, do not over water the treated area(s) to the point of runoff or apply when raining or when rain is expected that day.

HOW MUCH TO APPLY:
[Option 1a]
TURF Fertilizer Plus Trimec Ester Weed Control can be applied to the following turfgrasses when applied as directed:

Kentucky bluegrass, fescue spp., perennial ryegrass, common bermudagrass, bahiagrass, and zoysiagrass[.] [: Apply 2.5 to 4.0 pounds [xx.x pounds] of product per 1,000 square feet of established turfgrass.]

For St. Augustinegrass (not 'Floratam'), centipedegrass, hybrid bermudagrass, and colonial bentgrass[.] [: Apply 2.0 to 3.0 pounds [xx.x pounds] of product per 1,000 square feet of established turfgrass.]

[Option 1b—specifically for 7 lb, 14 lb and 42 lb bags or containers]
[For use on: Kentucky bluegrass, fescue spp., perennial ryegrass, common bermudagrass, bahiagrass, zoysiagrass, St. Augustinegrass, centipedegrass, hybrid bermudagrass, and colonial bentgrass.]: Apply 2.8 pounds of product per 1,000 square feet of turfgrass. A second application may be made after 30 days. The maximum number of broadcast applications per treatment site is 2 per year.

[Option 1c—specifically for 6.5 lb, 13 lb and 39 lb bags or containers]
[For use on: Kentucky bluegrass, fescue spp., perennial ryegrass, common bermudagrass, bahiagrass , zoysiagrass, St. Augustinegrass, centipedegrass, hybrid bermudagrass, and colonial bentgrass.]: Apply 2.6 pounds of product per 1,000 square feet of turfgrass. A second application may be made after 30 days. The maximum number of broadcast applications per treatment site is 2 per year.

Maximum use rate statement
Do not apply more than 4 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 8 pounds of product per 1000 square feet per year.

[If the use rate is fixed, pick the appropriate language to replace the paragraph above.]

[Do not apply more than 2 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 4 pounds of product per 1000 square feet per year.

Do not apply more than 2.5 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 5 pounds of product per 1000 square feet per year.

Do not apply more than 2.6 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 5.2 pounds of product per 1000 square feet per year.

Do not apply more than 2.8 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 5.6 pounds of product per 1000 square feet per year.

Do not apply more than 3 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 6 pounds of product per 1000 square feet per year.

Do not apply more than 3.2 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 6.4 pounds of product per 1000 square feet per year.

Do not apply more than 3.4 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 6.8 pounds of product per 1000 square feet per year.

Do not apply more than 3.6 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 7.2 pounds of product per 1000 square feet per year.

Do not apply more than 3.8 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 7.6 pounds of product per 1000 square feet per year.

Do not apply more than 4.0 pounds of product per 1000 square feet of turfgrass per application. If necessary, a second application may be made no sooner than 30 days after the first. Do not apply more than 8.0 pounds of product per 1000 square feet per year.]

The maximum broadcast application rate per acre is 1.28 lb 2,4-D ae, 0.29 lb MCPP-p ae and 0.12 dicamba ae per acre per application. The maximum seasonal rate is 2.56 lb 2,4-D ae, 0.58 lb MCPP-p ae and 0.25 lb dicamba ae per acre.

[Alternate maximum use rate statement
The maximum broadcast application rate is 4.0 pounds of product per 1,000 sq. ft. per application (1.28 lb 2,4-D ae, 0.29 lb MCPP-p ae and 0.12 dicamba ae per acre per application). The maximum number of broadcast applications is limited to 2 per year with a minimum of 30 days between applications. The maximum seasonal rate is 8.0 pounds of product per 1,000 sq. ft. (2.56 lb 2,4-D ae, 0.58 lb MCPP-p ae and 0.25 lb dicamba ae per acre).]

[Lower application rates within the specified range will provide satisfactory control of annual broadleaf weed species. The higher application rates within the specified range will be required for dense infestations of perennial weeds, for adverse/extreme environmental conditions, or for weeds beyond the appropriate growth stages.]

WHEN TO APPLY: [Note to reviewer one of the following statements will be on the label.]
[Apply when listed broadleaf weeds are [actively] growing in spring or early fall.]
[Apply when listed weeds are [actively] growing in spring.]
[Apply when listed weeds are [actively] growing in fall.]
[Apply when listed weeds are [actively] growing.]
[Can be applied anytime listed weeds are growing.]

Apply when the air is calm to ensure uniform coverage and avoid spreading granules onto flowers, vegetables, and ornamental shrubbery.

[WHAT TO EXPECT] [APPLICATION INSTRUCTIONS]:
(Steps 1-5) – OPTION A:

1. Mow lawn to normal height 1 to 2 days before application.
2. Water lawn thoroughly at least 1 to 2 days before application to sustain moisture until the next watering (see step 5).
3. Apply when weeds are young and actively growing, preferably in the morning when the dew is on the grass. If grass is not moist at time of application, sprinkle lightly with water before applying product.
4. Avoid applying when temperatures are consistently above 90°F.
5. Do not wash from weed leaves for 1 to 2 days after application. At this time, a thorough watering should be made.

(Steps 1-5) – OPTION B:

1. Mow lawn to normal height, 1 to 2 days before application.

2. For best results lawn must be MOIST and the air calm, when product is applied. When the lawn is moist, the product granules stick better to the leafy parts of the weeds, ensuring that the weed-killing ingredients are absorbed by the weed plant.
   TIP: Apply after a heavy dew or rain, or on a thoroughly watered lawn.
   TIP: DO NOT apply to a moist lawn **IF** rain is expected within 24 hours of application.
   TIP: DO NOT water in immediately after application as the granules need to stick to the weed plant leaf for 1-2 days to be most effective.
3. Apply when weeds are young and actively growing.
4. Avoid applying when temperatures are consistently above 90°F.
5. After a 1-2 day period after application, if it has not rained – the lawn should be thoroughly watered.

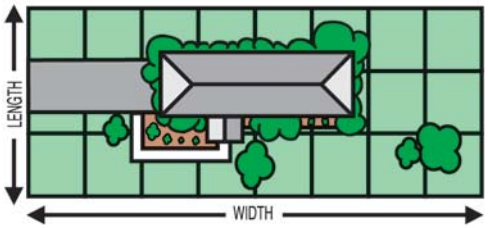
[Note: Registrant/Subregistrant may insert appropriate spreader setting information based on desired spreaders and recommended use rates as listed above.]

Optional [Application Equipment and Instructions] [Spreader Directions][Spreader Settings]:
[Determining Your Lawn's Square Footage]
[To determine how much of this product to apply, you must determine the square footage of your lawn. An easy way to do this is to walk the length of your lawn, figuring that one pace equals about 3 feet. Do the same with the width of the lawn. Then multiply the length by the width to arrive at the total. Make sure you subtract the square footage of your home and driveway when calculating the total square footage of your lawn. If your lawn has an irregular shape, try dividing it up into a number of square areas. Calculate the square footage for each area, then add the figures together to reach your total lawn size.]

[Insert icon representing foot print of house, driveway and lawn]



[above pictogram is optional**]**

Optional
[Determining the SIZE of Your Lawn]
[Simply multiply the length of the yard in feet, by the width in feet, to get the total size of the yard in square feet. Remember to subtract the square footage of the home and driveway and any additional large areas such as pools and flower beds, when calculating total square footage of the lawn so you don't buy more product than actually needed.]
[Check the package for details on how many square feet it covers]

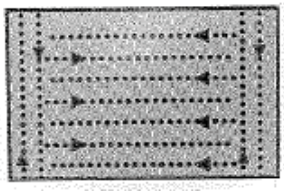
[Lot Size / Acre to Sq. Ft. Conversion:]

LOT SIZE / ACRE:	SQ. FT:
1/10	4,356
1/8	5,445
1/4	10,890
1/3	14,520
1/2	21,780
3/4	32,670
1 Acre	43,560

[Spreader Tips]
[The two main types of spreaders are the Drop Spreader, which drops the material straight down the width of the spreader as you push, and the Broadcast Spreader (also known as a rotary), which throws the material from the spreader.]

[Drop Spreader: (See Fig. A) First make two passes along the top of the area you'll be covering. Then make two passes along the bottom area. Then move back and forth along the long

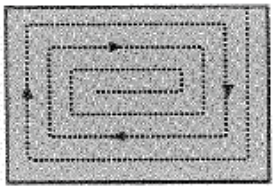
part of the lawn. On each pass, as you reach the strips at the top and bottom of the area to be covered, shut off the spreader. It's also important to shut off the spreader when you are stopped. **]**
[Insert icon showing spreader path]
[Insert drop spreader icon]



[Fig. A]

[above pictogram is optional**]**

[Broadcast Spreader: (See Fig. B**)** Apply in a single pass by starting on the outside border and apply in a circular path working toward the center.]
[Insert icon showing spreader path]
[Insert broadcast spreader icon]



[

[Fig. B]

[above pictogram is optional**]**

[Optional Spreader Language:]
[The above spreader settings are approximate. To check your spreader: XX lb. of material covers approximately XXX sq. ft. (X lbs. of material per XXXX sq. ft.)
Note: if spreader model does not appear above please call [toll free] XXX-XXX-XXXX, X am - X pm [ET] [CT] [MT] [PT], [Monday – Friday] [Monday – Sunday] [Anytime] [24/7] for additional model settings.]

[SPREADER SETTINGS:]
[This container, with the Ready2Go Spreader attachment, is pre-calibrated for the contents enclosed. No additional settings are required.]
[Consult basic rate of application information, in the HOW MUCH TO APPLY section of instructions.]

[Altering speed of operation from target rate of application is NOT allowed and may provide varying results.]

For use on:
[Kentucky bluegrass], [fescue spp], [perennial ryegrass], [common bermudagrass],[bahiagrass], [zoysiagrass], [St. Augustinegrass],[(not Floratam)] ,[centipedegrass], [hybrid bermudagrass], [colonial bentgrass], [tall fescue], [turf-type tall fescue].

[Editors note: Additional application rates may be entered into the spreader setting table]

LIMITATIONS OF LIABILITY: To the extent consistent with applicable law, THE EXCLUSIVE REMEDY OF THE USER OR BUYER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED THE PURCHASE PRICE PAID, OR AT [LEBANON SEABOARD CORPORATION'S] [Company's name] ELECTION, THE REPLACEMENT OF PRODUCT.]

Appendix I

[Optional Label Claims]

Claims – Miscellaneous

1. [Bar code] [product number]
2. [Item number]
3. [Not] Proof of Purchase
4. If the fertilizer guarantee contains iron, the following statement must appear:
   [Note:] [Notice:] This product contains the secondary nutrient iron. Iron may stain concrete surfaces and should not be applied on dry or water dampened concrete and should be removed from these areas promptly after application by sweeping or blowing. Do not wash off with water.
5. The following statement must appear (relevant to the fertilizer guarantee):
   [Note:] Information regarding the contents and levels of metals in this product is available on the internet at http://www.regulatory-info-lebsea.com.
6. Place holder "Picture of grass/soil interface"
7. The following statement may appear when the application rate applies less than 1 pound of nitrogen per 1,000 sq. ft.:
   [Note:] Supplemental applications of lawn fertilizer are needed to achieve a minimum of 1 pound nitrogen per 1,000 sq. ft.
8. The following statement may appear if application rate instructions specify different rates based on different regions in Florida:
   [Optional fertilizer text for state of Florida when applicable:] Florida Applications: [X] annual feedings [with the exception of [listed turfgrass species (X feedings in the north and X feedings in the central and south).] This package applies X.X lbs of product per 1,000 sq. ft.]
9. For products sold in the state of Florida, the following statement may appear:
   [Optional text for state of Florida] Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn/garden.
10. To address the FL Urban Turf Rule if "N" is greater than 25%, "In the state of Florida, do not apply more than [the equivalent of 1 lb N in terms of lbs of this product, see

chart]/1000 sq. ft. of turfgrass per application. Do not apply more than [2 X the rate in the previous bracket]/1000 sq. ft. turfgrass per year."

Product Equivalent Rate for 1 lb Nitrogen per Application for 961-415		
Product Application Rate in pounds	Nitrogen Guarantee	Pounds of Nitrogen applied per 1,000 sq. ft.
4.0	25%	1.00
3.8	26%	0.99
3.6	27%	0.97
3.5	28%	0.98

40. [For use on:]
[Kentucky bluegrass], [fescue spp], [perennial ryegrass], [common bermudagrass],[bahiagrass], [zoysiagrass], [St. Augustinegrass],[(not Floratam)], [centipedegrass], [hybrid bermudagrass], [colonial bentgrass], [tall fescue], [turf-type tall fescue].

Wondergro Brand of Products Optional Marketing Claims

1.

2.

3. Wondergro is a registered trademark of Lebanon Seaboard Corporation.

Claims regarding Weed Control Properties

1. 3 month [12 weeks] weed* grass control[as listed]
2. Apply when listed [broadleaf] weeds are [actively] growing [in spring or early fall] (from the When to Apply section of the label.)
3. Consistently fast on: tough weeds like clover, plantain, ground ivy and spurge [various other weeds listed]
4. Controls [Kills] clover, dandelion, plantain, chickweed and [other broadleaf weeds as listed [*]] [others as listed [*]
5. Controls a Wide Spectrum of Broadleaf Weeds*[as listed]
6. Controls Dandelion, White Clover, Plantain, Chickweed, Spurge and Many Other Listed Weeds
7. Controls new weeds* [as listed] for 3 months [12 weeks]
8. For a beautiful weed-free* lawn [turf]
9. For use on: Kentucky bluegrass, fescue spp., perennial ryegrass, common bermudagrass, bahiagrass, zoysiagrass, St. Augustinegrass, centipedegrass, hybrid bermudagrass and colonial bentgrass

10. Helps keep lawns [turf] weed-free*
11. Kills [down to] the root, [not the lawn]
12. Kills [major] broadleaf weeds* [as listed] [like clover, dandelion, oxalis]
13. Kills [Over] [More Than] [XXX] [250] [Listed Weeds] [Weeds as listed] [*][!] [as Listed](note: 253 listed weeds)
14. Kills [xxx] [250] listed weeds [*] including dandelion, clover and other common lawn weeds
15. Kills clover, dandelion, plantain, chickweed and other listed broadleaf weeds[*] [(see list on back of bag)]
16. Kills 250 Listed Lawn Weeds [*]To The Root!
17. Kills listed broadleaf weeds [*]in lawns [turf]
18. Kills clover, chickweed, spurge and many other listed broadleaf weeds [*]
19. Kills dandelion and many other listed broadleaf weeds [*].
20. Kills even the tough[est] listed broadleaf weeds [like clover, dandelion, oxalis]
21. Kills even the toughest listed weeds [*]
22. Kills major broadleaf weeds as listed [*] including roots. And (brand name) is formulated to kill only the weeds, not the lawn [turf]. Use as directed to kill major listed broadleaf weeds [*] in your lawn [turf].
23. Kills over [xxx] [250] of the toughest weeds as listed [*]
24. Kills over [xxx] [250] weed types as listed [*]
25. Kills Over [XXX] Listed Weeds [as Listed] [*], Including Henbit, Dollar Weed, White Clover, Plantain and Chickweed
26. Kills the root
27. Kills the listed weeds [*], not the lawn [turf]
28. Kills tough listed lawn [turf] weeds [*]
29. Kills listed weed roots [*]!
30. Kills listed weeds [*] now for few weeds in spring
31. Kills listed weeds on contact
32. Kills listed weeds [*]to the root
33. Kills listed weeds [*], not lawn [turf] grasses
34. Kills xx+ [250] Listed Weeds [*]
35. Kills xx+ [250+] Listed Weeds [*]; [Types,] Even the Roots.
36. Kills xx+ [250+] Listed Weeds [Types] [*] Including Roots
37. Northern and Southern Grasses Bluegrass, Fescue, Zoysia, Bermuda, St. Augustinegrass, Bentgrass, Centipede, Bahia, Perennial Ryegrass
38. Proven [all] [cool] weather performance
39. Provides broadleaf control
40. Starts working on contact
41. Targets weeds, leaves [grasses][the lawn] [the turf] unharmed
42. Tough weed killer
43. Treats Northern and Southern Grasses
44. Trimec logo
45. Use on Lawns [Turf] to Kill Tough Weeds like Clover and Dandelion.
46. Weed images (any listed weed)
47. Begins killing on contact
48. Destroys even the toughest [lawn] weeds*
49. Destroys weeds* fast

50. Fast-acting weed* [kill] [control]
51. Kills 250 Weeds* [to the root]
52. Kills 250+ [tough] [common] [lawn] weeds*
53. Kills dandelions [and most lawn weeds*]
54. Kills fall lawn weeds*
55. Kills tough lawn weeds* to the root
56. Kills tough weeds* [to the root]
57. Kills weeds* [quickly and] completely
58. Kills weeds* growing in spring or fall
59. Kills weeds*, won't harm lawn
60. More powerful than the toughest weeds*!
61. Weed-fighting formula
62. Works on contact

Claims regarding Combination Weed Control and Fertilizer

1. Kills listed weeds [*] [and fertilizes the lawn]
2. Kills listed weeds [*] and feeds your lawn [turf] for [up to] [3 months] [12 weeks]
3. Kills Listed Weeds[*]While Feeding Your Lawn [turf]
4. Kills Weeds*, Feeds Lawn for a Quick Spring Green Up
5. Kills weeds*-Thickens lawn
6. Lawn Nutrients and Weed* Control in one convenient formula!
7. LawnGuard formula [protects lawn, kills weeds]
8. Thickens turf to crowd out weeds
9. Weed ['n] [and] [&] Feed
10. Weed* Control [plus] [and] fertilizer

[This statement will appear in close proximity to the "*" and appear once per page when used.]*See Use Directions for complete list of treated weeds.

Claims regarding Fertilizer Properties

1. [TURF Fertilizer Plus Trimec Ester Weed Control] – All the fertilizer nutrients your lawn [turf] needs for spring
2. [TURF Fertilizer Plus Trimec Ester Weed Control] – Providing the Nutrients Needed for a Beautiful Lawn.
3. Builds strong, deep roots, for a thick, green lawn [turf]
4. Fertilizes to provide rich color [and vigorous growth]
5. Improves soil fertility
6. Larger Roots / Greener Lawn
7. No phosphate helps protect our waterways (for use when fertilizer analysis has "0" phosphate)
8. Promotes rapid root growth
9. Promotes root growth for a thicker, greener lawn [turf]
10. Protects & [and] strengthens for a better spring lawn [turf]
11. Provides your soil with nutrients
12. Restores nutrients to your soil
13. Restores nutrients to your soil for a quick spring green up [green-up]
14. Zero phosphate helps protect our waterways (for use when fertilizer analysis has "0" phosphate)

15. [feeds] [provides] for quick spring greening of lawn [grass] [turf]
16. [for] [Builds] [a] thicker, [stronger,] greener lawn [grass] [turf]
17. [phosphorus] [phosphate] free [Allowed only when “zero” phosphate indicated.]

18. (Symbol for heat/drought resistance)
19. (Symbol for stronger roots)
20. [xx%] readily available nitrogen
21. Builds [strong] deep roots [to retain water] [to protect from drought and heat] [to endure heat, drought] [for better heat and drought tolerance]
22. Builds stronger roots [for maximum drought resistance] [for maximum greening of lawn [grass] [turf]] [for maximum water absorption]
23. Deeper roots better retain water to protect from heat and drought
24. Deeper, stronger roots means less watering needed
25. Feeds for a [quick] [early] spring lawn [grass] [turf] green up
26. Feeds for a thicker, greener lawn next spring
27. Great results, first season of use –guaranteed.
28. Grow a thicker, greener lawn with less water
29. Grows [strong] [deep] roots to protect from heat and drought
30. Helps lawns retain water to protect against heat and drought
31. Improves water absorption [in turf grasses]
32. Less watering, [drought resistant] due to [stronger] [deeper] roots
33. No burning when used as directed.
34. Promotes [winter hardiness and] early spring lawn [grass] [turf] green up
35. Promotes quicker spring lawn [grass] [turf] green-up
36. Repairs summer damage
37. Strengthens lawn against summer heat
38. Strengthens lawns against heat and drought
39. Strong[er] roots [can] [will] absorb [more] water [better] [with less effort]

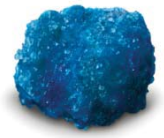
Claims regarding Slow Release Fertilizer Properties

1. [TURF Fertilizer Plus Trimec Ester Weed Control or This product] feeds and greens with [slow release] fertilizer [for up to 3 months] [for up to 12 weeks].
2. Feeds [greens] [strengthens] [thickens] your lawn for up to 3 months [12 weeks]
3. Feeds your lawn [turf] up to 12 weeks
4. Greens up to 3 months [12 weeks]
5. MESA® is a registered trademark of Lebanon Seaboard Corporation.
6. Patented, controlled release nitrogen for continuous feeding
7. Quick and continuous greening for up to 3 months [12 weeks]

8. (Number symbol as shown in circle number will range from 1 to 12 weeks/months)
9. [1 to 12] Feeds your lawn up to [x] [weeks] [months].
10. [METH-EX®] [MESA®] Provides slow, continuous feeding for up to 12 weeks. Initially some nitrogen is released by water to provide early spring green-up of lawn [grass] [turf]. As soil temperatures warm, nitrogen is gradually released through microbial action that minimizes surge growth.
11. [Promotes] [Fast] [quick] [early] spring lawn [grass] [turf] green up with extended feeding
12. [xx%] slowly available nitrogen
13. Change to a more efficient, top-performing fertilizer
14. Continuous feeding [for] [up to] [(X weeks) (X months)]
15. Featuring both immediate release and controlled-release nutrients.
16. Featuring MESA® Slow Release Nitrogen
17. Feeds [lawns] for 3 months!
18. Feeds [your] [the] lawn [for 3 months] [all season]
19. Fertilize once for whole growing season.
20. Get spectacular results with an enhanced efficiency fertilizer, guaranteed to deliver.
21. METH-EX® is a registered trademark of Lebanon Seaboard Corporation.
22. Slow release nitrogen helps prevent leaching into area water systems when applied as directed when compared to other fertilizer products.
23. MESA® proprietary slow-release nitrogen builds strong roots to provide controlled, steady nutrition for your lawn
24. MESA® is a proprietary, patented slow-release nitrogen source
25. Contains MESA® controlled release nitrogen
26. New Jersey slow-release nitrogen compliant
27. Slow-release nitrogen content compliant in [state, state, state]
28. Provides the [lawn] [turf] controlled, steady nutrition
29. Consistent greening with no excess growth, and less mowing!
30. Provides lush, green lawn with no excess growth
31. No surge growth
32. Less mowing, because greening is more consistent
33. The following statement regarding application rates, may appear where application instructions specify an application rate that exceeds a state(s) maximum allowable rate: In the state of [insert state], apply a maximum of [XX.X] lb. product/1,000 sq.ft. [Make no more than [X] application[s] per year.]
34. Feeds [lawns] for ([8] [9] [10] [11] [12] weeks) ([2] [3] months)!
35. Feeds [lawn] [for] [up to] [X months]!
36. Feeds [your] [the] lawn [for] [up to] [(2) (3) months] ([8] [9] [10] [11] [12] weeks
37. MESA® - A little bit of blue makes a whole lot of green.
38. [MESA®] [GreenSmart◊] promotes:
    a. [Deeper Green Turf]
    b. [Faster Green-Up]
    c. [More Nitrogen to the Plant]
    d. [Brilliant Color Response, Even in Cooler Temperatures]
    e. [Fewer Clippings]
    f. [Extended Color for up to [8] [9] [10] [11] [12] weeks]

39. How can any fertilizer that works so quickly last so long?
40. The answer is MESA®, the patented combination of ammonium sulfate with methylene urea
41. NO artificial coatings
42. Ammonium sulfate release is effectively controlled to provide consistent, brilliant turf color
43. Features MESA®: the first nitrogen source to combine ammonium sulfate with methylene urea in a single particle.
44. MESA® retains its slow-release attributes even when cracked, chipped, or crushed
45. NO flush-growth response
46. Dependable, economical fertilizer choice for any residential lawn

47. (photo: MESA granules)



48. (photo: MESA granule – whole)
49.

MESA®
Patented Controlled Release Nitrogen

50. Patented Controlled Release Nitrogen
51. Meets [list state or states] slow release nitrogen requirements
52. Meets [list state or states] state-wide slow release nitrogen requirements
53. Meets [list state or states] nitrogen requirements
54. Specially formulated for [list state or states] Lawns
55. [list state or states] slow-release nitrogen compliant
56. Slow-release nitrogen compliant in [list state or states]
57. Features [MESA®][MESA logo] nitrogen for fast green-up, extended feeding and fewer grass clippings
58. Features [MESA®] [MESA logo] [Slow Release] Nitrogen for fast green-up, extended feeding and fewer clippings
59. Features [MESA®] [MESA logo][Controlled Release] Nitrogen for faster green-up, continuous feeding and fewer grass clippings
60.

XX	XX	XX
Nitrogen (N)	Phosphorous (P)	Potassium (K)
Contains Timed-Release Nitrogen for growing a thick green lawn [Stimulates growth and encourages a thick. green lawn]	Improves Root [Improves root growth and Plant Storage Capacity]	Improves Plant Hardiness & Drought Resistance

Claims regarding GreenSmart Fertilizer Properties

1. GreenSmart Enhanced Efficiency Fertilizer for a Green Lawn
2. [contains] [with] GreenSmart◊
3. GreenSmart◊
4. GreenSmart (logos)

5. GreenSmart and Design is a trademark of Lebanon Seaboard Corporation
6. GREENSMART ENHANCED EFFICIENCY FERTILIZER FOR A GREEN LAWN and Design is a registered trademark of Lebanon Seaboard Corporation.
7. [GreenSmart] [GREENSMART] is a registered trademark of Lebanon Seaboard Corporation.
8. 20% less nutrients required for the same great lawn [turf] results [with GreenSmart Enhanced Efficiency Fertilizer]
9. Enables lawns [turf] to use nutrients more efficiently
10. Enhanced Efficiency Fertilizer
11. Enhances nutrient absorption
12. Enriches soil to promote a vibrant, hardy lawn [turf]
13. GreenSmart◊ enhances poor soil, creating an environment in which lawns [turf] can thrive. GreenSmart◊ produces thick, green lawns [turf].

14. GreenSmart◊ nourished lawns [turf] are more robust because their root systems are larger, deeper and better developed. Vigorous roots mean[s] the lawn [turf] is hardier and better able to tolerate the stress that comes with heat and drought.
15. GreenSmart◊ produces thick, green lawns [turf]
16. Helps lawns [turf] retain water to protect against heat & [and] drought
17. Helps unlock nutrients already in the soil
18. Improved Nitrogen Efficiency - Reduces Leaching
19. [GreenSmart Enhanced Efficiency Fertilizer -] Improved nutrient release and absorption into the lawn [turf] allows 20% less nutrients to be applied while still providing [a] quality lawn [turf]
20. Improves drought resistance
21. Improves lawn's [turf's] ability to absorb water & [and] nutrients
22. Increase nutrient up-take in grass [lawns] [turf] up to 20% [with GreenSmart Enhanced Efficiency Fertilizer]
23. Lawn[s] [turf] [and plants] nourished with [company name's] GreenSmart◊ are [is] able to tolerate the stress from heat and drought. GreenSmart◊ produces large, deep, and well developed root systems that can retain water. This enables lawns [turf] [and plants] to withstand stressful conditions.
24. Less watering needed
25. Less watering needed, drought resistant [lawn] [turf]
26. Makes it easier for lawns [turf] to absorb soil nutrients
27. N-P-K with GreenSmart◊ [Enhanced Efficiency Fertilizer for a Green Lawn]
28. Plants [lawns] [turf] use[s] nitrogen more efficiently so you need less
29. Poor soil may have fewer of the nutrients needed to promote a vigorous lawn [turf]. GreenSmart◊ works by enriching your soil with nutrients. GreenSmart◊ revitalizes the soil, which aids in the development of a larger, deeper and better root system. The enhanced habitat is proven to produce a green, thick, vigorous lawn [turf], and reduces the need for watering.
30. Promotes rapid root growth [for a thick green] [lawn] [turf]
31. Recharges your soil with nutrients!
32. Reduces plant [lawn] [turf] stress related to drought
33. Reduces stress on lawns [turf], protects from drought & heat
34. Speeds root growth to improve nutrient absorption
35. Unlocks the nutrients in soil, enhancing nutrient absorption, so you can grow a thicker, greener lawn [turf] with less water
36. Unlocks the nutrients in your soil
37. A high-quality product, made with GreenSmart◊.
38. Because your grass is better able to absorb and use the nutrients and moisture provided by the surrounding soil, less fertilizer ingredients are needed.
39. Better lawn nutrition [means] [results in] stronger, heartier grass.
40. Boosted root development helps retain water to protect against heat and drought, so less watering is needed.
41. Builds stronger plants, that need less watering[*] [*when compared to unfertilized lawn, as measured by quality.]
42. Enriches soil, nourishing [lawn] [plants] to become stronger and more able to withstand stresses like drought — so you can water less.
43. Fertilizers with GreenSmart◊ represent a new class of lawn-care treatment options.
44. For the results you want – for the neighborhood you can be proud of.

45. Good nutrition is an essential part of being personally fit, and a big part of a quality lawn too.
46. GreenSmart◊ – Proven performance.
47. GreenSmart◊ [provides] [adds] nutrients where they are needed most, stimulating root growth and improving the efficiency of the lawn's natural root system.
48. GreenSmart◊ enhances soil habitat to improve nutrient absorption. Better plant nutrition means stronger, heartier plants.
49. GreenSmart◊ helps build strong plants that need less watering because stronger, flourishing lawns are more able to withstand heat and drought.
50. GreenSmart◊ helps reduce lawn stress due to heat and drought.
51. GreenSmart◊ helps revitalize soil, making more [conventionally] [commonly] [normally] occurring nutrients available.
52. GreenSmart◊ introduces beneficial nutrients that promote stress-resistance in [plants] [lawns]
53. GreenSmart◊ is an exclusive, nutrient-rich formula that promotes plant quality.
54. GreenSmart◊ is rich in essential nutrients [plants] [lawns] need.
55. GreenSmart◊ is rich in essential soil nutrients plants need for optimal plant quality.
56. GreenSmart◊ promotes a lawn that's heartier and better able to sustain itself.
57. GreenSmart◊ promotes better water retention to protect against heat and drought
58. GreenSmart◊ provides lawns [turf] with nutritional support to help promote and maintain overall plant vigor resulting in a beautiful, green lawn.
59. GreenSmart◊ provides nutritive benefits to the [lawn] [plants] [turf] to enhance nutrient reception.
60. GreenSmart◊. Look for it in quality lawn and garden products.
61. GreenSmart's◊ nutrients stimulate soil habitat efficiency and promote development of deeper roots for a lawn that needs less watering, and produces grass that's hearty and drought resistant.
62. Improves water conservation by building strong roots and more stress-tolerant plants
63. More efficient nutrient delivery, providing similar results with less nitrogen than traditional fertilizers
64. More efficient nutrient delivery; requires less nitrogen inputs.
65. Now with [GreenSmart logo]
66. Provides similar greening results with up to [20%] [30%] less nitrogen than traditional fertilizers.
67. Reduces need for watering by increasing tolerance to drought and heat.
68. Revitalizes lawn to grow stronger, heartier [lawns] [plants][*] [*when compared to unfertilized lawn, as measured by quality.]
69. Revitalizes soil habitat to grow stronger, heartier plants.
70. Take pride in your lush, green lawn – and pride in your neighborhood
71. Use Fertilizer with GreenSmart◊ for a brighter, heartier lawn[*] [* when compared to unfertilized lawn, as measured by quality.]
72. When it comes to growing a green lawn, GreenSmart◊ is downright brilliant!
73. www.greensmart.com
74. You can feel good about the beautiful, green lawn results — and the positive impact on your neighborhood.

7. [Ace Green Turf® Winterizer Weed & Feed or This product] contains the latest technology in weed control. It kills over 250 of the toughest weeds. It is specially formulated to complement the phosphorus already present in some soils and give your turf the additional primary nutrients needed for a good turf feeding. A soil test can help you determine if your soil has an adequate supply of phosphorus and if this is the best product for your soil type. Proper watering and mowing practices along with regular feedings will help promote a beautiful green lawn.
8. The ACE® Promise. If this ACE product when used for its intended purpose, fails to give you complete satisfaction, return the item to the ACE Hardware store where purchased for free replacement of the same or similar item.

16. Contains time-released nitrogen for extended feeding
17. Feeds 2,500 SQ FT
18. Logo WORKS THE FIRST TIME OR YOUR MONEY BACK!

15 . Why Fertilize the Lawn?

While it is easy to see that satisfying deep green when you fertilize, regular feedings can actually do much more….

1. Promote a deep and dense root system that is better able to reach water and find nutrients during tough heat & drought, so lawn stays greener, longer and bounces back faster
2. Thicken lawn with additional blades of grass, making it more resistant to bare spots and thinning
3. Help prevent weeds by making it difficult for weed seeds in the air to find soil to root, as well as crowd out existing weeds

Unfed Lawn (image)

vs.

Regularly Fed Lawn (image)

16. Next Feeding
    Feed every 8 weeks for optimal results
    Apply anytime weeds are actively growing. +
    +Maximum of 2 applications per year

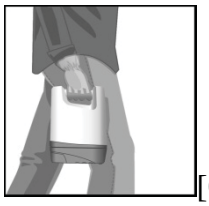
53. First time use
    - [1] Remove the sticker from the [latch area][side] of the Ready2Go Spreader™
    - [2] Place unit upside down on a flat surface [as shown].
    - [3] Holding the container steady, flip the latch to open.
    - [4]Turn the [green] [any color] [R2G] spreader base [counterclockwise] a quarter turn and lift to remove.
    - [5] Remove the protective seal on the container.
    - [6]Remove the battery compartment pull tab to [activate] [power the unit].
    - [7]While still in an inverted position], realign the spreader base, with the container. Twist [clockwise] to lock into position.
    - [8] Securely close the latch.

- [9]Flip it to the upright position and you are ready to begin applying product.

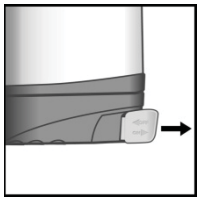
54. Directions for applying the product [or product name] to your lawn:

- [1] Move to the lawn area to be treated.



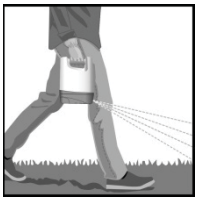
[Optional Pictograms or images]

- POSITION the Ready2Go Spreader™ comfortably [at] [by] your side (arm fully extended), over the target area, and TURN ON by pulling back the on/off slide switch.



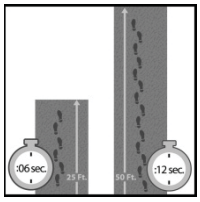
[Optional Pictograms or images]

- [2] When product begins spreading, WALK over the application area at a NORMAL WALKING PACE



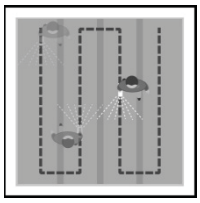
[Optional Pictogram or image]

- (6 seconds for a 25’ strip, or 12 seconds for a 50’ strip).



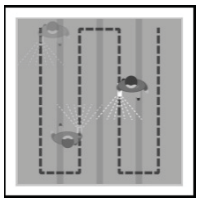
[Optional Pictogram or image]

- CONTINUE to within [2’] [two feet] of the end of the application area, and begin a new row by taking [2] [TWO] STEPS TO THE RIGHT OR LEFT, and walk back parallel to your first row. There should be a SLIGHT OVERLAP to the spread radius.



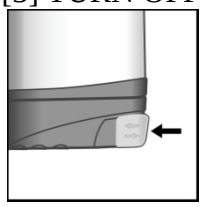
[Optional Pictogram or image]

-CONTINUE in this manner until you have finished applying the product.



[Optional Pictogram or image]

- [3] TURN OFF the Ready2Go Spreader™ by PUSHING IN the slide switch.



[Optional Pictogram or image]

- If product remains, store in a cool, dry place. If empty and lawn application is finished, simply refill the container.

55. Applying product with the Ready2Go Spreader™ applicator:
56. To Apply:
    - Be sure you are on the lawn area to be treated.
    - Hold the spreader comfortably at your side with arm fully extended downward.
    - Pull the [yellow] [any color] slide switch at the side-back of the spreader/container ON and begin walking to apply.
    - Apply according to the application instructions (pace) and pattern diagram (pattern) for best results.
    - When product is depleted, push the [yellow] [any color] slide switch IN to turn the spreader OFF.
    - If product remains, store in a cool, dry place. If empty and lawn application is finished, simply refill the container.

57. Target pace
58. Desired pattern

59. **Refilling your Ready2Go Spreader™: [To refill your [R2G][Ready2Go] spreader™ container:]**
    - [1]PLACE the Ready2Go Spreader™ UPSIDE DOWN on a flat surface [the [GREEN] [any color] BASE facing up].
    - [2]HOLD the container steady while TURNING the base COUNTER-CLOCKWISE until it STOPS and LIFT to remove.
    - [3]CUT a corner opening on the [TURF Fertilizer Plus Trimec Ester Weed Control or product name] refill bag, and pour into the Ready2Go Spreader™ until the container is FULL.

[Optional Pictogram or image]

- [4]Replace the spreader unit base. [Align tabs and slots and twist clockwise into place]
- [5]FLIP the Ready2Go Spreader™ to the UPRIGHT position. The Ready2Go Spreader™ is now ready to operate. Follow application instructions.

60. **Refilling your Ready2Go Spreader™: [To refill your Ready2Go Spreader Container:]**
    - [1]PLACE the Ready2Go Spreader™ UPSIDE DOWN on a flat surface [the [GREEN] [any color] BASE facing up].
    - [2] HOLD the container steady and flip the latch to open.
    - [3] TURN the base [COUNTER-CLOCKWISE] until it STOPS and LIFT to remove.
    - [4]CUT a corner opening on the [TURF Fertilizer Plus Trimec Ester Weed Control or product name] [refill] [bag], and pour into the Ready2Go Spreader™ until the container is FULL.

[Optional Pictogram or image]

- [5]Replace the spreader unit base. [Align tabs and slots and twist [clockwise] into place]
- [6]Securely close the latch.
- [7]FLIP the Ready2Go Spreader™ to the UPRIGHT position. The Ready2Go Spreader™ is now ready to operate. Follow application instructions.

61. To refill your Ready2Go Spreader™ container, while in the off position, flip the unit and place it on a flat surface.
    - [1]Holding the container steady, grip the [green] [any color] base and twist it a quarter turn counterclockwise until it stops. Simply lift to remove.
    - [2]Open the refill bag, and pour contents into the container base until full.
    - [3]Replace the spreader unit base. [Align tabs and slots and twist clockwise into place]
    - [4]Return the container to an upright position and you are ready to go! Follow application instructions.

62. To refill your Ready2Go Spreader™ container, while in the off position, flip the unit and place it on a flat surface.
    - [1]Holding the container steady, flip the latch and grip the [green] [any color] base and twist it a quarter turn [counterclockwise] until it stops. Simply lift to remove.

- [2]Open the [refill] bag, and pour contents into the container base until full.
- [3]Replace the spreader unit base. [Align tabs and slots and twist [clockwise] into place]. Secure the latch.
- [4]Return the container to an upright position and you are ready to go! Follow application instructions.

63. To replace batteries:
    - Access the battery compartment on the inside of the spreader base.
    - Battery compartment door opens by pinching tab and lifting to open.
64. Requires [1] [2] [3] [4] [AA] [AAA] [C] [D] batteries (included).
65. Batteries are [disengaged] [inactivated] for shipment. [Simply pull [protection] [protective] tab from battery compartment to engage battery power.]
    Use [Battery type] batteries.
66. Rechargeable batteries may be used.
67. Batteries included, but disabled for shipment. Pull tab from battery compartment to activate.
68. Pull tab to activate batteries.
69. Do not mix old and new batteries.
70. Do not mix alkaline, standard (carbon-zinc), or rechargeable [(ni-cad, ni-mh, etc)] batteries.
71. Save time, easy to apply
72. Save time.

*As compared to traditional fertilizer spreader setup and application

73.

*As compared to traditional fertilizer spreader setup and application

74.
75. Product goes on evenly.
76. No spreader maintenance [just change batteries]
77. Battery life typically [insert number] applications.
78. No settings.
79. No guesswork.

80. Minimum set up – Just flip the switch and go!
