SUBJECT: Label Amendment – Marketing Claims
Product Name: Turf Broadleaf Weed Control
EPA Registration Number: 961-418
Application Date: March 3, 2014
Decision Number: 488954

Dear Ms. Covert:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). If you have any questions, please contact Dianne L. Morgan by phone at 703-305-6217, or via email at morgan.dianne@epa.gov.

Sincerely,

Kathryn V. Montague

ACCEPTED

SEP 23 2014

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended for pesticide registration, EPA Reg. No. 961-418

TURF Broadleaf Weed Control

[Alternate Brand Name:
Preen Lawn Weed Killer]

ACTIVE INGREDIENTS:

2,4-dichlorophenoxyacetic acid	1.37%
(+)-(R)-2-(2 methyl-4-chlorophenoxy)propionic acid	0.31%
Dicamba: 3,6-dichloro-o-anisic acid	0.13%
OTHER INGREDIENTS:	98.19%
TOTAL	100.00%

THIS PRODUCT CONTAINS:
27.4 lb 2,4-dichlorophenoxyacetic acid equivalent per ton.
6.2 lb (+)-(R)-2-(2 methyl-4-chlorophenoxy)propionic acid equivalent per ton.
2.6 lb 3,6-dichloro-o-anisic acid equivalent per ton.
Isomer Specific by AOAC Methods
TRIMEC® is a registered trademark of PBI/Gordon Corporation.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

CAUTION: Harmful if absorbed through skin. Harmful if inhaled. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Causes moderate eye irritation. Wash

thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt and long pants, socks, shoes, and gloves. Remove and wash contaminated clothing before reuse.

First Aid	
If on skin or on clothing:	• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 - 20 minutes. • Call a poison control center or doctor for treatment advice.
If inhaled:	• Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. • Call a poison control center or doctor for further treatment advice.
If in eyes:	• Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If swallowed:	• Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For Emergency Medical Treatment Information call (888)208-1368.	

Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn will help to prevent run off to water bodies or drainage systems.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until dusts have settled.
- This product is intended for residential use.

[Optional Heading:] [INSTRUCTIONS:] [Use Instructions:] [Application Directions] [Application Instructions]

[TURF Broadleaf Weed Control or This product] controls a wide range of listed lawn weeds which includes dandelion, chickweed, knotweed, plantain, henbit, spurge and many others commonly found in home lawns. Retreatment may be necessary if (a) lawn is heavily overrun by weeds, or, (b) if adverse low moisture conditions prevail and weeds are in a state of poor growth. If necessary make a second application after 30 days.
For use on established warm season turfgrasses - includes bermudagrass, centipedegrass, and zoysiagrass.
For use on established cool season turfgrasses - includes Kentucky bluegrass, perennial ryegrass, tall fescue, and turf-type tall fescues.

USE RESTRICTIONS:
Do not apply this product on carpetgrass, dichondra, St. Augustinegrass, or established turf containing desirable clovers.

Do not apply this product to newly seeded grasses until well-established or after the second or third mowing.

Reseeding or overseeding areas may occur three (3) weeks after the application of this product.

Do not use this product on or in close proximity to desirable plants and do not spread granules onto exposed root systems or adventitious shoots (rhizomes) within the drip line of the roots of desirable trees and shrubs, since injury may result.

Do not use this product on flowers, vegetables, groundcovers, gardens or landscape plantings which includes shrubs and trees. Do not exceed specified dosage for any area and do not apply this product within the dripline of or over surface roots of trees, shrubs, and other ornamentals.

Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when windy. Apply this product directly to your lawn, and sweep any product landing on the driveway, sidewalk, gutter, or street back onto the treated area. To prevent product run-off, do not over water the treated area(s) to the point of runoff or apply when raining or when rain is expected that day.

[HOW MUCH TO APPLY:]

The maximum broadcast application rate is 2.0 pounds of product per 1,000 sq.ft. per application [(1.2 lb 2,4-D ae, 0.27 lb MCPP-p ae and 0.12 lb dicamba ae per acre per application)]. The maximum number of broadcast applications is limited to 2 per year with a minimum of 30 days between applications. The maximum seasonal rate is 4.0 pounds of product per 1,000 sq.ft. [(2.4 lb 2,4-D ae, 0.54 lb MCPP-p ae and 0.24 lb dicamba ae per acre)].

[WHEN TO APPLY:] [Note to reviewer one of the following statements will be on the label.]
Apply when listed broadleaf weeds are [actively] growing in spring or early fall.
[Apply when listed weeds are [actively] growing in spring]
[Apply when listed weeds are [actively] growing in fall]
[Apply when listed weeds are [actively] growing]
[Can be applied anytime listed weeds are growing]

Apply when the air is calm to ensure uniform coverage and do not spread granules onto flowers, vegetables, and ornamental shrubbery.

[WHAT TO EXPECT:] [APPLICATION INSTRUCTIONS:]
(Steps 1-5) – OPTION A:

1. Mow lawn to normal height 1 to 2 days before application.
2. Water lawn thoroughly at least 1 day before application to sustain moisture until the next watering (see step 5).
3. Apply when listed weeds are young and actively growing, preferably in the morning when dew is on the grass. If grass is not moist at time of application, sprinkle lightly with water to allow the granules to adhere and to remain on the leaf surface of the weeds.
4. Do not apply when temperatures are consistently above 90°F.
5. Do not wash [this product] from weed leaves for 1 to 2 days after application. After 1 to 2 days, thoroughly water the lawn.

(Steps 1-5) – OPTION B:

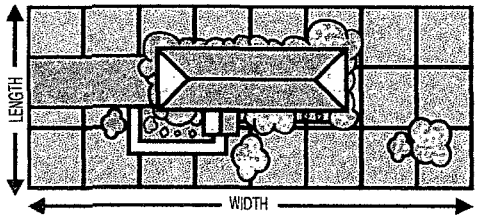
1. Mow lawn to normal height, 1 to 2 days before application.
2. For best results lawn must be MOIST and the air calm, when product is applied. When the lawn is moist, the product granules stick better to the leafy parts of the weeds, ensuring that the weed-killing ingredients are absorbed by the weed plant.
   TIP: Apply after a heavy dew or rain, or on a thoroughly watered lawn.
   TIP: DO NOT apply to a moist lawn **IF** rain is expected within 24 hours of application.
   TIP: DO NOT water in immediately after application as the granules need to stick to the weed plant leaf for 1-2 days to be most effective.
3. Apply when weeds are young and actively growing.
4. Avoid applying when temperatures are consistently above 90°F.

5. After a 1-2 day period after application, if it has not rained – the lawn should be thoroughly watered.

[Optional Heading:] [Spreader Settings}
[Note: Registratn/Subregistrant will insert appropriate spreader setting information based on spreader models and use rate.]

Optional [Application Equipment and Instructions] [Spreader Directions]:
[Determining Your Lawn's Square Footage
To determine how much of this product to apply, you must determine the square footage of your lawn. An easy way to do this is to walk the length of your lawn, figuring that one pace equals approximately 3 feet. Do the same with the width of the lawn. Then multiply the length by the width to arrive at the total. Make sure you subtract the square footage of your home and driveway when calculating the total square footage of your lawn. If your lawn has an irregular shape, try dividing it up into a number of square areas. Calculate the square footage for each area, then add the figures together to reach your total lawn size.]

[Insert icon representing footprint of house, driveway and lawn]



[above pictogram is optional]

Optional
[Determining the SIZE of Your Lawn]
[Simply multiply the length of the yard in feet, by the width in feet, to get the total size of the yard in square feet. Remember to subtract the square footage of the home and driveway and any additional large areas such as pools and flower beds, when calculating total square footage of the lawn so you don't buy more product than actually needed.]
[Check the package for details on how many square feet it covers]

[Lot Size / Acre to Sq. Ft. Conversion:]

LOT SIZE / ACRE :	SQ. FT:
1/10	4,356
1/8	5,445
1/4	10,890
1/3	14,520
1/2	21,780
3/4	32,670
1 Acre	43,560

[Spreader Tips
The two main types of spreaders are the Drop Spreader, which drops the material straight down the width of the spreader as you push, and the Broadcast Spreader (also known as a rotary), which throws the material from the spreader.]

[Drop Spreader: [(See Fig. A.)]First make two passes along the top of the area you'll be covering. Then make two passes along the bottom area. Then move back and forth along the long part of the lawn. On each pass, as you reach the strips at the top and bottom of the area to be covered, shut off the spreader. It's also important to shut off the spreader when you are stopped.]
[Insert drop spreader icon]

[Insert icon showing spreader path]

[][above pictogram is optional] [Fig. A.]

[Broadcast Spreader: [(See Fig. B.)] Apply in a single pass by starting on the outside border and apply in a circular path working toward the center.]
[Insert broadcast spreader icon]

[Insert icon showing spreader path]

[][above pictogram is optional][Fig. B.]

[Optional Spreader Language:]
[The above spreader settings are approximate. To check your spreader - 1.0 lb. of material covers approximately 500 sq.ft. (2.0 lbs. of material per 1,000 sq. ft.).
Note: if spreader model does not appear above please call [toll free] XXX-XXX-XXXX, X am – X pm [ET] [CT] [MT] [PT], [Monday – Friday] [Monday – Sunday] [Anytime] [24/7] for additional model settings.]

[SPREADER SETTINGS:]
[This container, with the Ready2Go Spreader attachment, is pre-calibrated for the contents enclosed. No additional settings are required.]
[Consult basic rate of application information, in the HOW MUCH TO APPLY section of instructions.]

[Altering speed of operation from target rate of application is NOT allowed and may provide varying results.]

For use on:
[bermudagrass], [centipedegrass], [Kentucky bluegrass], [tall fescue], [turf-type tall fescue], [zoysiagrass]

Claims regarding Weed Control Properties

1. 3 month [12 weeks] weed* grass control
2. Apply when [broadleaf] weeds* are [actively] growing [in spring or early fall] [Note: from the When to Apply section of the label]
3. Contains Trimec® Herbicide
4. Consistently fast on: tough weeds* like clover, plantain, ground ivy and spurge [various other weeds listed]
5. Controls [Kills] clover, dandelion, plantain, chickweed and [other broadleaf weeds*] [others as listed]
6. Controls [Kills] Dandelion, Clover, Chickweed, [Knotweed], [Henbit], Plantain, [and] Spurge [and Many Other Broadleaf Weeds as Listed on the Back Panel.]
7. Controls a Wide Spectrum of Broadleaf Weeds*
8. Controls Dandelion, White Clover, Plantain, Chickweed, Spurge and Many Other Listed Weeds*
9. Controls new weeds* for 3 months [12 weeks]
10. Destroys weeds* fast
11. For a beautiful weed-free* lawn [turf]

12. For use on: Kentucky bluegrass, perennial ryegrass, fescue spp., bermudagrass, centipedegrass and zoysiagrass.
13. Helps keep lawns [turf] weed-free*
14. Kills [down to] the root[!], [not the lawn]
15. Kills [major] broadleaf weeds* [like clover, dandelion, oxalis]
16. Kills [Over] [More Than] [XXX] [200] [Listed Weeds] [Weeds as listed] [*][!] [as Listed](note: 202 listed weeds)
17. Kills [xxx] [200] [listed] weeds* - dandelion, clover and other common lawn weeds*
18. Kills clover, dandelion, plantain, chickweed and other broadleaf weeds* (see list on back of bag)
19. Kills 200 weeds*
20. Kills 200 Lawn Weeds* To The Root!
21. Kills broadleaf weeds* in lawns [turf]
22. Kills clover, chickweed, spurge and many other broadleaf weeds*
23. Kills dandelions [and most lawn weeds*]
24. Kills dandelion and many other broadleaf weeds*
25. Kills even the tough[est] broadleaf weeds* [like clover, dandelion, oxalis]
26. Kills even the toughest weeds*
27. Kills fall lawn weeds*
28. Kills major broadleaf weeds* and roots. And [TURF Broadleaf Weed Control] is formulated to kill only the weeds*, not the lawn [turf]. Use as directed to kill major broadleaf weeds* in your lawn [turf].
29. Kills [more than] [over] 200 [tough] [lawn] weeds*
30. Kills over [xxx] [200] of the toughest weeds*
31. Kills over [xxx] [200] weed* types
32. Kills Over [XXX] [Listed] Weeds* [as Listed], Henbit, Dollar Weed, White Clover, Plantain and Chickweed
33. Kills [to] the root[!]
34. Kills the weeds*, not the lawn [turf]
35. Kills the toughest [lawn] weeds* [to the root]
36. Kills tough lawn [turf] weeds*
37. Kills weeds* growing in spring or fall
38. Kills weeds* [quickly and] completely
39. Kills weed* roots!
40. Kills weeds* now for few weeds in spring
41. Kills weeds* on contact
42. Kills weeds* to the root
43. [Preen] Kills weeds*, not lawn [turf] grasses
44. [Preen] Kills 200 Weeds* [to the root]
45. [Preen] Kills xx+ [200] Weeds*
46. Kills xx+ [200+] Weeds*; [Types,] Even the Roots.
47. Kills xx+ [200+] [Listed] Weeds* [Types] and Roots
48. Northern and Southern Grasses Bluegrass, Fescue, Zoysia, Bermuda, Centipede, Perennial Ryegrass
49. Provides broadleaf control
50. Starts working on contact
51. Targets weeds*, leaves [grasses] [the lawn] [the turf] unharmed

52. Tough on [lawn] weeds*
53. Tough weed killer
54. Treats Northern and Southern Grasses
55. Trimec® logo
56. Weed-fighting* formula
57. Use on Lawns [Turf] to Kill Tough Weeds* like Clover and Dandelion
58. Weed images [any listed weed]
59. Works on contact

*See Use Directions for complete list of treated weeds.

20. Agway [(Subregistrant)] Recommended 4 Stage Lawn Program makes it easier to have a lush, green lawn. Our 4 simple applications eliminate the guesswork and give you professional lawn care results. Each stage combines just the right amount of fertilizer with the right amount of control and prevention. Just match each stage to the correct season and you'll prevent crabgrass, control weeds [and insects] and prepare your lawn for the winter. It's what your lawn needs for strong growth.
21. AGWAY'S Greenlawn products are the quality choice in complete lawn care. You determine your lawn needs, and you'll find a Greenlawn product to help you. Fertilizers, lawn starters, crabgrass prevention, weed [and insect] control, winterizers - everything your lawn needs for a lush, green lawn and year-round protection. Each one is easy to apply and guaranteed to produce quick, long-lasting results.
22. Notice: Read the entire label. Use only according to label directions. Before buying this product, read the Warranty Section elsewhere on this label. If terms are not acceptable, return the unopened container at once.
23. AGWAY Guarantees Satisfaction If for any reason you are not fully satisfied with the performance of this product, we want to know. Just bring the item back to the store and we will exchange it or issue a refund.
24. For best results, use an Agway spreader.

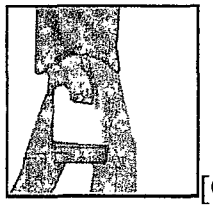
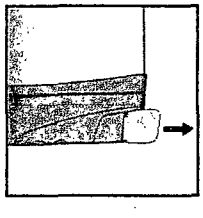
52. First time use
- [1] Remove the sticker from the [latch area][side] of the Ready2Go Spreader™
- [2] Place unit upside down on a flat surface [as shown].
- [3] Holding the container steady, flip the latch to open.
- [4]Turn the [green] [any color] [R2G] spreader base [counterclockwise] a quarter turn and lift to remove.
- [5] Remove the protective seal on the container.
- [6]Remove the battery compartment pull tab to [activate] [power the unit].
- [7]While still in an inverted position], realign the spreader base, with the container. Twist [clockwise] to lock into position.
- [8] Securely close the latch.
- [9]Flip it to the upright position and you are ready to begin applying product.

53. Directions for applying the product [or product name] to your lawn:
- [1]Move to the lawn area to be treated.



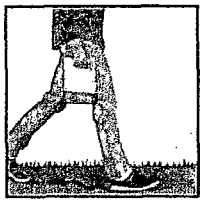
[Optional Pictograms or images]

- POSITION the Ready2Go Spreader™ comfortably [at] [by] your side (arm fully extended), over the target area, and TURN ON by pulling back the on/off slide switch.



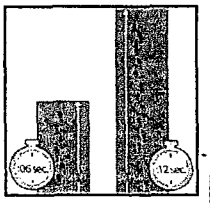
[Optional Pictograms or images]

- [2]When product begins spreading, WALK over the application area at a NORMAL WALKING PACE



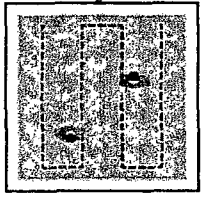
[Optional Pictogram or image]

- (6 seconds for a 25' strip, or 12 seconds for a 50' strip).



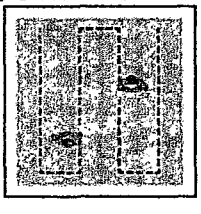
[Optional Pictogram or image]

- CONTINUE to within [2'] [two feet] of the end of the application area, and begin a new row by taking [2] [TWO] STEPS TO THE RIGHT OR LEFT, and walk back parallel to your first row. There should be a SLIGHT OVERLAP to the spread radius.



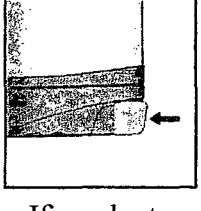
[Optional Pictogram or image]

-CONTINUE in this manner until you have finished applying the product.



[Optional Pictogram or image]

- [3] TURN OFF the Ready2Go Spreader™ by PUSHING IN the slide switch.



[Optional Pictogram or image]

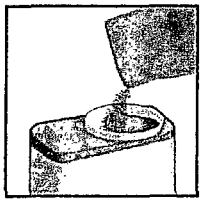
- If product remains, store in a cool, dry place. If empty and lawn application is finished, simply refill the container.

54. Applying product with the Ready2Go Spreader™ applicator:
55. To Apply:
    - Be sure you are on the lawn area to be treated.

- Hold the spreader comfortably at your side with arm fully extended downward.
- Pull the [yellow] [any color] slide switch at the side-back of the spreader/container ON and begin walking to apply.
- Apply according to the application instructions (pace) and pattern diagram (pattern) for best results.
- When product is depleted, push the [yellow] [any color] slide switch IN to turn the spreader OFF.
- If product remains, store in a cool, dry place. If empty and lawn application is finished, simply refill the container.

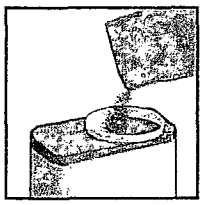
56. Target pace
57. Desired pattern

58. **Refilling your Ready2Go Spreader™: [To refill your [R2G][Ready2Go] spreader™ container:]**
    - [1]PLACE the Ready2Go Spreader™ UPSIDE DOWN on a flat surface [the [GREEN] [any color] BASE facing up].
    - [2]HOLD the container steady while TURNING the base COUNTER-CLOCKWISE until it STOPS and LIFT to remove.
    - [3]CUT a corner opening on the [TURF Fertilizer Plus Trimec Ester Weed Control or product name] refill bag, and pour into the Ready2Go Spreader™ until the container is FULL.



[Optional Pictogram or image]

    - [4]Replace the spreader unit base. [Align tabs and slots and twist clockwise into place]
    - [5]FLIP the Ready2Go Spreader™ to the UPRIGHT position. The Ready2Go Spreader™ is now ready to operate. Follow application instructions.
59. **Refilling your Ready2Go Spreader™: [To refill your Ready2Go Spreader Container:]**
    - [1]PLACE the Ready2Go Spreader™ UPSIDE DOWN on a flat surface [the [GREEN] [any color] BASE facing up].
    - [2] HOLD the container steady and flip the latch to open.
    - [3] TURN the base [COUNTER-CLOCKWISE] until it STOPS and LIFT to remove.
    - [4]CUT a corner opening on the [TURF Fertilizer Plus Trimec Ester Weed Control or product name] [refill] [bag], and pour into the Ready2Go Spreader™ until the container is FULL.



[Optional Pictogram or image]

- [5]Replace the spreader unit base.. [Align tabs and slots and twist [clockwise] into place]
- [6]Securely close the latch.
- [7]FLIP the Ready2Go Spreader™ to the UPRIGHT position. The Ready2Go Spreader™ is now ready to operate. Follow application instructions.
-

60. To refill your Ready2Go Spreader™ container, while in the off position, flip the unit and place it on a flat surface.
    - [1]Holding the container steady, grip the [green] [any color] base and twist it a quarter turn counterclockwise until it stops. Simply lift to remove.
    - [2]Open the refill bag, and pour contents into the container base until full.
    - [3]Replace the spreader unit base. [Align tabs and slots and twist clockwise into place]
    - [4]Return the container to an upright position and you are ready to go! Follow application instructions.
61. To refill your Ready2Go Spreader™ container, while in the off position, flip the unit and place it on a flat surface.
