DIRECTIONS FOR USE

This product is for the control of bollworm, cotton fleahopper, cotton leafworm, leaf rollers, pink boll worm, and cotton leaf perforator on cotton. Apply at the rate of 15 pounds per acre in a manner to giv thorough coverage of the affected portions of the crop-plants. For control of salt-marsh caterpillar, apply at the rate of 20 pounds per acre. Begin applications when a damageable or potentially damageable infestation of the insects appear, and continue treatments at weekly intervals as additional control is needed. For further specific information consult your state agricultural extension service.

CAUTION

Use only for recommended purposes and at recommended dosages.

Do not apply this material with equipment that has ever been used to apply 2,4-D, 2,4,5-T or related weed killing compounds.

NOTICE

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
