DIRECTIONS FOR USE

Use at least one fogging unit for the average size home or kennel (Approximately 10,000 cu. ft.). Utilization of additional units may be necessary for remote rooms or areas where free flow of fog is not assured.

Place fogging unit on a newspaper to prevent marring surface of table or stand. Cover fish tanks or bowls tightly or remove from treated area. Remove all pets. Cover exposed food, dishes and food handling equipment. Open closets, cabinets and area to be treated. Shut all lamps and other appliances. Close door [illegible]

[illegible] Point top of [illegible] edge of [illegible] Open windows and doors [illegible]
