ACTIVE INGREDIENTS:
Malathion O,O-dimethyl [illegible]
Xylene
Mineral Spirits
INERT INGREDIENTS:

KEEP OUT OF REACH OF CHILDREN

CAUTION:

STATEMENT OF PRECAUTIONARY MEASURES

IF SWALLOWED:

IF INHALED:

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative in the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Metal - Triple rinse (see below). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by the state and local authorities.

FLIES: For most effective results for the control of flies, use in a good sprayer, adjusted to produce a coarse spray. Add 1 gallon of MALATHION W.E. to 9 gallons of water. In the household, spray thoroughly and repeat when necessary, selected surfaces such as doors, screened windows, screens, doorsills and areas of porches where these pests congregate.

MALATHION W.E. may be used around yards, sheds housing domestic animals, and garbage cans and fences where flies tend to congregate. It may also be used in dairy barns but not in places where milk is stored or processed.

MEAT AND POULTRY PLANTS: MALATHION W.E. must be used in accordance with the conditions for residual insecticides set forth in Section 6.48 of the Meat and Poultry Inspection Manual. They must be used in a manner that prevents the entry into edible product areas through open windows, ventilation systems, etc.

BAIT SPRAY: Use 1 gallon of bait [illegible]
