FLIES AND MOTHS, OUTDOORS: Fall area with fog or fine spray to kill flies and small flying moths (adults). Repeat treatment as necessary, usually once or twice a week.

TEMPORARY REDUCTION OF ANNOYANCE: The above-mentioned applications for mosquitoes, gnats, flies and moths will afford temporary reduction of annoyance from these pests in public gathering places such as parks and open sports stadia. Application should be made prior to attendance.

ANTS, SILVERFISH, CRICKETS, ROACHES AND BOX ELDER BUGS: For control of these insects, spray or dust the insects and nests or areas where they are active. Repeat as necessary, or as required.

CAUTION
