P29 #4816-473 P11 131

CODE 723.80

Pyrenone® M.A.G. 75-7.5 MOSQUITO INSECTICIDE

Highly Concentrated PYRENONE® Insecticide

For Application in Mechanical Aerosol Generators With or Without Dilution

For Control of Adult Mosquitoes Outdoors or Indoors

ACTIVE INGREDIENTS

Pyrethrins	7.5%
Piperonyl Butoxide, Technical	75.0%
INERT INGREDIENTS	17.5%
	100.0%

*Equivalent to 60% (butylcarbityl)(6-propyl-piperonyl) ether and 15% related compounds.

**Contains Petroleum Distillate

KEEP OUT OF REACH OF CHILDREN.

CAUTION

See side panel for additional precautionary statements.

EPA Reg. No. 4816-473 EPA Est. No. 279-NY-1

PYRENONE - Registered Trademark of Fairfield American Corporation

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This concentrate is especially recommended for application using mechanical aerosol generating, ULV equipment which produces spray particles in the 5 to 50 micron diameter range with 80% less than 30 microns. It may be used undiluted or diluted with 50 to 60 second viscosity oil.

OUTDOORS

For best results, apply when there is a light breeze at approximately 5 miles per hour. Apply from the windward side so the fog will be carried across the area to be treated. Repeat treatment as required.

Using truck-mounted equipment calibrated to deliver 1 ounce per minute, apply undiluted for ½ minute per acre. Diluted with 2 parts concentrate to 1 part oil, apply for 3/4 minute per acre at the same delivery rate. A 300 foot swath may be treated.

INDOORS

The use of this product in food processing establishments should be confined to time periods when the plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using.

Remove pets, birds and cover fish aquaria before spraying.

Close doors and windows and shut off ventilating systems. Apply this concentrate undiluted using mechanical aerosol generators. Keep area closed for a minimum of one hour. Vacate treated area and ventilate before reoccupying.

If used in Federally inspected meat or poultry processing plants, dilute with oil at no more than 8.5 fl. oz. to make one gallon (which will result in 5% synergist and 0.5% pyrethrins) and dispense from equipment adjusted to deliver an aerosol spray (no droplets over 50 microns in diameter and 80% less than 30 microns).

To kill adult mosquitoes, fruit flies, and gnats: With generator calibrated to deliver 1 ounce per minute, discharge at a rate of 30 seconds per 1000 cubic feet of space. Repeat treatment when reinfestation occurs.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinsate that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by other approved State and local procedures.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Caution: Harmful if swallowed. Do not use or store near heat or open flame.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not contaminate lakes, streams or ponds by cleaning of equipment or disposal of wastes.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herein.
