STATEMENT OF PRACTICAL TREATMENT

In all cases of overexposure, get medical attention immediately. Take patient to a doctor or emergency facility.

If inhaled: Get exposed person to fresh air. Keep warm. Make sure person can breathe freely. If breathing has stopped, give artificial respiration, preferably mouth to mouth. Do not give anything by mouth to an unconscious person.

If skin: Immediately remove contaminated clothing, shoes, and other items covering skin. Wash contaminated skin area thoroughly with soap and water.

If eyes: Hold eyelids open and flush with a steady gentle stream of water for at least 15 minutes.

* STORAGE, DISPOSAL AND HANDLING OF CYLINDERS *

Chloropicrin is shipped in returnable DOT 4BA 240 steel cylinders. All Cylinders are to be returned to Niklor. Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE AND HANDLING

1. Store cylinders in a secure locked place.
2. Store cylinders in a well ventilated, cool, dry place, away from fire and other sources of heat.
3. Store cylinders away from food, feed, clothing or residences.
4. Keep valves closed, capped, and bonnets on when not in use.
5. Have on hand all the protective equipment specified under section HAZARD TO HUMANS, and use as instructed.
6. Work in an area where there is good air flow and that is removed from large concentrations of people.
7. Consult Niklor or for suitable materials for piping, valves, etc.
8. Handle cylinders with care. Do not unload by dropping.
9. Have valves capped and bonnets in place when moving cylinders.
10. Have cylinders well secured when moving.

SPILL OR LEAK

11. In case of spill or leak immediately put on SCBA mask and close off source of leak, if possible.
12. Evacuate immediate area of spill or leak. Use SCBA or combination air supplied SCBA respirator for entry into affected area to correct problem. Move leaking or damaged container outdoors or to an isolated location observing strict safety precautions. Work upwind if possible. Allow spilled material to be evaporated or absorb onto vermiculite, dry sand, earth or similar absorbent material, which may be disposed of on site or at an approved disposal facility. Do not permit entry into affected area or clean-up area by unprotected persons until concentration of chloropicrin is determined to be less than 0.1 ppm.
13. Consult Chemtrec or Niklor for further information in emergencies.

DISPOSAL

14. When there are full or partially filled cylinders left after requirements are met, return the surplus to Niklor.
15. Pesticides are toxic. Improper disposal of excess pesticide, mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

RETURN OF CYLINDERS

16. Return empty cylinders and surplus filled or partially filled cylinders to Niklor Chemical Co., Inc. at:
    2060 E. 220th St.
    Carson, CA 90745
17. Return cylinders freight collect by the same freight line that delivered them, if possible.
18. The mailing address of Niklor Chemical Co., Inc. is:
    2060 E. 220th St.
    Long Beach, CA 90810
19. When returning cylinders be sure the valves are turned off, capped and the bonnets are in place.
20. Chloropicrin is classified by the Department of Transportation as Class B Poison. When returning empty cylinders describe as: "Empty, last contained Chloropicrin, Liquid, Poison B." Also write "In case of accident call Chemtrec, phone no. 1-800-424-9300."
