Cross-contamination is of major hospital and public concern not only in hospitals, but in schools, institutions, and industry. CAROUSEL DISINFECTANT CLEANER is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-contamination.

CAROUSEL DISINFECTANT CLEANER is an extremely effective one-step sanitizer for non-food contact surfaces. It cleans and sanitizes in waters up to 850 ppm hardness. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

Two ounces of CAROUSEL DISINFECTANT CLEANER per gallon of water will deodorize surfaces in bathrooms, garbage storage areas, and other areas where bacterial growth can cause mal-odors. Prevents odors caused by mold and mildew.

Precautionary Statements

Hazards to Humans and domestic animals

WARNING

Keep out of reach of children. May cause severe eye irritation or eye damage. Causes skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

STORAGE AND DISPOSAL

THIS PRODUCT MUST BE KEPT UNDER LOCKED STORAGE SUFFICIENT TO MAKE IT INACCESSIBLE TO CHILDREN OR PERSONS UNFAMILIAR WITH ITS PROPER USE.

— DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL
— OPEN DUMPING IS PROHIBITED
— DO NOT REUSE EMPTY CONTAINER

PESTICIDE DISPOSAL

PESTICIDE, SPRAY MIXTURE OR RINSATE THAT CANNOT BE USED OR CHEMICALLY REPROCESSED SHOULD BE DISPOSED OF IN A LANDFILL APPROVED FOR PESTICIDES OR BURIED IN A SAFE PLACE AWAY FROM WATER SUPPLIES.

CONTAINER DISPOSAL

TRIPLE RINSE (OR EQUIVALENT) AND DISPOSE IN AN INCINERATOR OR LANDFILL APPROVED FOR PESTICIDE CONTAINERS, OR BURY IN A SAFE PLACE.

GENERAL

CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES SUCH AS SUMMER BURNING.

Directions for Use

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

CAROUSEL DISINFECTANT CLEANER is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-virucide in the presence of moderate amounts of organic soil.

Apply CAROUSEL DISINFECTANT CLEANER to walls, floors, other (sanitized/disinfected) non-porous surfaces such as tables, counertops, sinks and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution or when use solution becomes visibly dirty.

Disinfection — to disinfect hard, non-porous hospital surfaces, add 2½ oz. per gallon of water. Treated surfaces must remain wet for minutes. At this use-level CAROUSEL DISINFECTANT CLEANER is also virucidal and fungicidal. At 1½ oz. per gallon, CAROUSEL DISINFECTANT CLEANER will disinfect hard non-porous surfaces in schools, industry and non-medical institutions.

Sanitizing — To sanitize porous or non-porous, non-food contact surfaces, add 1 oz. per 2½ gallons of water. Treated surfaces must remain wet for 30 seconds.

For hospitals and nursing homes, add 2.6 oz. per gallon of water. The broad spectrum activity of CAROUSEL DISINFECTANT CLEANER has been evaluated in the presence of 5% serum and found effective against the following organisms by the AOAC Use-Dilution Test:

- Pseudomonas aeruginosa
- Staphylococcus aureus
- Salmonella cholerasuis
- Escherichia coli
- Streptococcus pyogenes
- Proteus mirabilis
- Klebsiella pneumoniae
- Enterobacter aerogenes
- Salmonella schottmuelleri
- Streptococcus faecalis
- Shigella dysenteriae
- Gram-bacterium ammoniagenes

AOAC Fungicidal Test
CAROUSEL DISINFECTANT CLEANER is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc.

Virucidal Performance
*At 2 oz. per gallon use-level CAROUSEL DISINFECTANT CLEANER was evaluated in the presence of 10% serum and found to be effective against the following viruses: Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), Adenovirus Type 5 (a common virus in respiratory diseases) and Influenza A_2 as represented by strains commonly called the Hong Kong Flu and the London Flu on inanimate environmental surfaces.

For schools, commercial institutional and industrial uses: At 2 oz. per gallon of water, CAROUSEL DISINFECTANT CLEANER delivers a resident cleaning and germicidal effectiveness. It is effective against Staphylococcus aureus, Salmonella cholerasuis and Escherichia coli. The same AOAC tests used above to confirm suitability for hospitals were used.

Sanitizing Non-Food Contact Surfaces (such as floors, walls, etc.) At 1 oz. / 2½ gallon use-level CAROUSEL DISINFECTANT CLEANER is an effective sanitizer in waters of up to 850 ppm hardness against Staphylococcus aureus and Klebsiella pneumoniae in the presence of 5% serum on hard porous and non-porous inanimate surfaces.
