	100.000%

Net Wt.
7 oz 198 g

EPA Est 2596-NJ-1 EPA Reg No 2596-103

Keep out of reach of children

CAUTION: See back panel for additional precautionary statements

HARTZ FLEA AND TICK REPELLENT FOR DOGS

● repels fleas - repels ticks ● kills fleas - kills ticks ● repels mosquitoes ● keeps your pet flea and tick free for up to 21 days ● repels insects which reduces incidence of itching and scratching

Hartz Flea and Tick Repellent prevents these pests from actually inhabiting your dog. In laboratory and field tests, animals treated with this spray repelled fleas and ticks for up to 21 days. The spray may also be used on pets infested with fleas or ticks in order to kill these parasites and prevent additional ones from inhabiting the pet.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

To repel fleas and ticks thereby reducing incidence of itching and scratching hold container 6 to 10 inches from animal and spray over entire body. Be sure to cover feet and tail. Do not spray in eyes. For best penetration of spray to the skin direct spray against the natural lay of the fur to cause ruffling of the coat. Under normal circumstances repeat spray every 21 days. In areas in periods of heavy infestation it may be necessary to treat the dog more frequently. Under such circumstances an occasional flea or tick may be seen on the animal. For more prolonged flea and tick control the animal's bedding quarters and surrounding area should also be sprayed lightly until damp to help prevent reinfestation. Complete control can be obtained by attaching a Hartz 2 in 1® Reflecting Collar to the pet in addition to use of this spray.

Storage and Disposal Do not contaminate water, food or feed by storage and disposal. Wrap empty container and put in trash collector.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Avoid inhalation of spray. Avoid spraying in eyes. It is good practice to wash hands after use. Do not contaminate water or food.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STATEMENT OF PRACTICAL TREATMENT

In eyes: Rinse eyes with plenty of water. Call a physician if irritation persists.
