SEE LEFT SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

READ THE REMAINING LABEL BEFORE USING PRODUCT [illegible]

ENVIRONMENTAL HAZARDS

POISON [illegible] AND WILDLIFE

[illegible]

HIGHLY TOXIC TO BEES

[illegible]

PHYSICAL AND CHEMICAL HAZARDS

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME

DIRECTIONS FOR USE

[illegible] labeling.

STORAGE AND DISPOSAL

PROHIBITIONS

Not for use or storage [illegible]

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Improper dumping is prohibited. Do not reuse empty container.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures.

DIRECTIONS FOR USE CONTINUED

For aerial applications, flagging must be by fully automated mechanical means or by humans working in totally enclosed vehicles.

COTTON

For control of thrips, lygus bugs, cotton fleahopper and aphids apply 3/4 pint of TWIN KILL per acre. Make first application when infestation warrants and repeat to 4-5 day intervals as needed.

For control of boll weevil, cotton leafworm, garden webworm and some species of spider mites, apply 1 pint TWIN-KILL per acre. Make first application when infestation warrants and repeat at 4-5 day intervals as needed.

For control of bollworm and tobacco budworm, apply 2 pints TWIN KILL per acre. Repeat at 5 day intervals as needed.

If ground equipment is used, apply recommended amount of TWIN-KILL in 3-6 gallons of water per acre.

For airplane application, apply recommended amount of TWIN-KILL in 1-3 gallons of water per acre.

Do not spray cotton within 7 days of hand picking. Do not spray cotton within 7 days of mechanical harvesting. Workers entering treated fields within 48 hours after application should wear clean, tightly woven protective clothing. Do not feed forage or gin trash to livestock or other beneficial animals.

Do not apply this product when weather conditions favor drift from treated area.

Do not apply to blooming cotton if bees are visiting the treatment area.

NOTICE

MFC Services (AAL) warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably forseeable to MFC Services; any buyer assumes the risk of any such use. MFC Services shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
