PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS
AND DOMESTIC ANIMALS:

D A N G E R

POISONOUS LIQUID AND VAPOR
CONTACT WITH LIQUID MAY PRODUCE BURNS
DO NOT BREATH VAPOR.
DO NOT GET IN EYES, ON SKIN, OR CLOTHING.

WASH ALL CONTAMINATED CLOTHING WITH SOAP AND WATER BEFORE RE-USE. DO NOT RE-USE CONTAMINATED CLOTHING OR SHOES UNTIL FREE OF CHEMICAL ODOR. THIS FUMIGANT IS A HIGHLY HAZARDOUS MATERIAL AND MUST BE HANDLED WITH CARE ONLY BY THOSE INDIVIDUALS EXPERIENCED WITH ITS PROPER USE. CONSULT YOUR DEALER REPRESENTATIVE FOR CORRECT PROCEDURE. BEFORE USING, READ AND FOLLOW ALL LABEL DIRECTIONS AND PRODUCT LITERATURE SPECIFIC TO YOUR PARTICULAR REQUIREMENTS.

THIS FUMIGANT HAS THE CAPACITY TO CAUSE MARKED IRRITATION TO THE UPPER RESPIRATORY TRACT, AND IS A STRONG LACHRYMATOR (TEAR PRODUCING EYE IRRITANT). LOW CONCENTRATIONS, BELOW THOSE NECESSARY TO CAUSE SERIOUS SYSTEMIC INTOXICATION, ARE CAPABLE OF CAUSING SEVERELY PAINFUL EYE IRRITATION. HENCE, WILL NOT BE VOLUNTARILY TOLERATED. HOWEVER, THE EFFECT MAY BE SO POWERFUL THAT A PERSON MAY BECOME TEMPORARILY BLINDED AND PANIC-STRICKEN AND THAT IN TURN MAY LEAD TO ACCIDENTS.

RESPIRATORY EXPOSURE

RESPIRATORY PROTECTION. Do not breathe fumes. Because of the respiratory irritation of this fumigant, it will serve as the best identifying signal to help prevent over-exposure. However, if vapor exposure may occur in a confined space, a full face gas mask with an air supply (hose or cylinder) is recommended. Read and follow the gas mask manufacturer's recommendations. A full face gas mask with a black (black canister marking) NIOSH specifications for organic vapors can also be used under certain circumstances where the vapor concentration is known to be under 2% by volume (0 to per 1000 ppm). Canisters should be used for no more than that period recommended by the manufacturer. Discard used canisters by crushing. Chloropicrin could not be dispersed upon use on identifying agent when a carrier gas mask is used.

EYE EXPOSURE

Wear safety glasses when working with this fumigant. Exposure of eyes to splashing liquid fumigant may result in irreversible blindness. In case of eye exposure, flush eyes with clean water.

SKIN EXPOSURE

Do not spill. If liquid fumigant splashed or spills on shoes or clothing, remove them at once, as fumes from the contaminated area will be an intolerable source of irritation. If liquid contacts skin where rings or bracelets are worn, remove them and wash exposed skin with soap and water. All impure shoes or clothing outside and do not wear until free of all traces of fumigant. Always have adequate clean water available to wash skin.

ENVIRONMENTAL HAZARD

This fumigant is toxic to fish and wildlife. It should not be discharged where it will enter free bodies, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

KEEP OUT OF REACH OF CHILDREN

DANGER **PELIGRO**

POISON

SEND FOR A DOCTOR IMMEDIATELY
IN CASE OF EXPOSURE

IF INHALED: Remove Victim To Fresh Air Immediately. Keep Victim Lying Down and Warm. Give Artificial Respiration If Breathing Has Stopped. Call Physician Immediately.

IF ON SKIN: Remove All Contaminated Clothing and Shoes Immediately. Wash Exposed Areas Thoroughly With Soap and Water. If a Rash or Blister Develops, Get Medical Attention. Clean or Launder Contaminated Clothing Before Re-use. Do Not Re-Use Clothing or Shoes Until Free Of Chemical Odor.

IF IN EYES: Flush With Running Water For At Least 15 Minutes. Get Medical Attention Promptly.

See Side Panel For Additional Precautionary Statements.

TRINITY MANUFACTURING, INC.

Precautions Continued

CHEMICAL HAZARD

Do not use containers or application equipment made of magnesium aluminum or their alloys, as under certain conditions this fumigant may be extremely corrosive to such metals. Do not permit water to be used in steam fumigant pressure system as corrosion will result. Stainl ss is satisfactory for this purpose.

DIRECTIONS FOR USE

It is a violation of Instruction to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE:
Store in a cool, dry, well-ventilated area under lock and key. Post as a pesticide storage area. Do not contaminate water, food or feed by storage or disposal. Persons handling or handling pesticides should wear protective clothing. Open container only in a well-ventilated area wearing protective clothing, and respiratory protection if necessary.

RETURN OF CYLINDERS: Cylinders are the property of
Trinity Manufacturing, Inc
112 E. Y Hogan Blvd
Hamlet, NC 28345
and should be returned promptly by method note freight.
1. When a cylinder is empty, the valve should be closed, the safety cap screwed onto the valve outlet, and the protection bonnet replaced prior to the return to the shipper.
2. Do not ship cylinders without safety caps or valve protection bonnets.
3. When a cylinder is partially full and there is no further requirement for the product, contact Trinity Manufacturing, Inc. for return instructions.
4. Cylinders should never be refilled by the consumer or used for any other product or purpose.

SHIPPING:
This fumigant is classified by the U.S. Department of Transportation Hazardous Materials Regulations as Chloropicrin, 6.1 UN 1580, PG I, Poison Inhalation Hazard, Hazard Zone B and its exemptions from specifications packaging, marking, and labeling are allowed. Domestic carrier regulations on loading food contained Chloropicrin, 6.1 UN 1580, PG I, Poison Inhalation Hazard, Hazard Zone B. Do not ship with food, feeds, or clothing.

HANDLING:
1. The valve protection bonnet and safety cap should be removed only when fumigant is about to be pumped from the cylinder. The safety cap and valve protection bonnet must be replaced when the cylinder is not in use.
2. Cylinders should never be subjected to rough handling or to abnormal mechanical shock such as dropping, bumping, dragging or sliding.
3. Ropes, slings, hooks, tongs, and similar handling devices should not be used for unloading cylinders.
4. A suitable hand truck, fork truck or similar device to which the cylinders can be firmly secured should be used for transporting the heavier cylinders.

SPILL OR LEAK PROCEDURE
Evacuate immediate area of spill or leak. Use SCBA (ventilation of supplied SCBA respirator, or approved canister respirator for entry into affected area to correct problem. Move leaking or damaged container outdoors or to an isolated location, observing strict safety precautions. Work upwind if possible. Allow spilled material to evaporate, or to already safe containers, dry sand, earth, or similar absorbent material which may be disposed of on site, or at an approved disposal facility. Do not permit entry into spill area or attempt by unprotected persons until concentration of chloropicrin is determined to be less than 0.1 ppm.

DISPOSAL:
Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray solution, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest E.P.A. Regional Office for guidance.

FOR MANUFACTURING PESTICIDE FORMULATIONS

This product may be used only for the manufacture of pesticide formulations for preplant soil fumigation of terrestrial food crops, ornamentals and nursery beds; and for greenhouse preplant soil fumigation of food crops, ornamentals and nursery beds.

WARRANTY

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE extends to implied warrants to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller and buyer assumes the risk of any such use.
