OR AROUND THE HOME

DANGER POISON

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED AND VICTIM IS CONSCIOUS AND NOT CONVULSING Call a physician immediately. Give a glass or two of water and induce vomiting by tickling back of throat with finger. It is preferable to induce vomiting under medical supervision or use gastric lavage with a cuffed endotracheal tube because of aspiration hazard. Remove victim immediately to emergency treatment facility.
IF SWALLOWED AND VICTIM IS UNCONSCIOUS Clear the upper airway and administer mouth to mouth resuscitation. If heart beat is absent administer cardiac resuscitation. Do not give anything by mouth. Prevent vomiting and hold head back with jaw forward to keep upper airway open. Transport immediately to emergency treatment facility. Remove victim from contaminated area. Apply artificial respiration if indicated. Get medical attention immediately.
IF ON SKIN Remove contaminated clothing and wash the affected areas with soap and water. Get medical attention immediately.
IF IN EYES Flush eyes with water for at least 15 minutes. Flush with water. Get medical attention immediately.
In case of Emergency involving this material call the Gowan Company immediately or the Chemtrec Hotline immediately at [illegible]
