[illegible]

[illegible] FLIES, MOSQUITOES, AND GNATS Close all [illegible] windows. Point nozzle upward. Direct spray mist [illegible] room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed. Sweep up and destroy fallen insects. Repeat treatment as necessary.

KILLS WASPS AND HORNETS Space spray. Before applying, close all doors, windows and ventilator openings. In unfinished attics and crawl spaces where direct sprays cannot reach pests, point nozzle upward and fill the area with mist at the rate of 36 seconds per 1,000 cu. ft. of space. Leave treated area immediately after application is complete, closing off area for at least ½ hour. Ventilate area when treatment is complete. Repeat as necessary.

KILLS CRAWLING INSECTS Roaches, earwigs, grain mites, sowbugs, sprays and centipedes. Spray thoroughly into cracks, crevices, inner areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible as a contact spray. Repeat applications as necessary.

TO KILL ANTS Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

WASPS AND HORNETS Direct spray. Applications should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary. Spray directly on stray wasps that enter buildings.

IMPORTANT Sweep up all dead insects and deposit these sweepings into a closed garbage container within two hours after each treatment.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMAN & DOMESTIC ANIMALS
CAUTION

Harmful if swallowed. Avoid contact with eyes, skin or clothing. Cover or remove exposed foods. Avoid contamination of cooking utensils and food preparation surfaces. Remove pets, birds and cover fish aquariums before spraying.

In case of contact, immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture. Do not use near heat or open flame. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE
GENERAL CLASSIFICATION

[illegible] violation of Federal [illegible] use this product [illegible] consistent with its labeling.

STORAGE AND DISPOSAL

Do not store near heat or open flame. Do not reuse empty container. Wrap container and put in trash collection. Never throw container into fire or incinerator.

NOTE: Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or served. Do not use in serving areas while food is exposed.

kil-zum

flying insect killer

KILLS [illegible] flies, mosquitoes, gnats, wasps, roaches, earwigs, spiders, centipedes, ants, horse flies and deer flies.

ACTIVE INGREDIENTS:

**Pyrethrins (5-phenylmethyl-3-furanyl)methyl 2,2-dimethyl-3-(2-methyl-1-propenyl)-cyclopropanecarboxylate	0.200%
Related compounds	0.028%
Allethrins (1-allyl homolog of Cinerin I)	0.400%
Related compounds	0.030%
Aromatic petroleum hydrocarbons	0.27%
Piperonyl butoxide	6.500%
INERT INGREDIENTS:	92.570%
	100.000%

[illegible] 5% [illegible] 75% [illegible]

**U.S. Patent Nos. 1,485,307 and 3,342,928

**Pyrocide SBP 1382 is a blend of synthetic pyrethroids

Pyrocide CSC 96 Sherex Research, Hopewell, N.J. 07925

** See above
