DIRECTIONS

NON-CROP OR NON-PLANTED AREAS [illegible] above ground weed growth around buildings and other installations, [illegible] roads, walkways, patios, beneath greenhouse benches, fence lines, golf courses, parkways and driveways for control of undesirable [illegible] and grass type weeds. 2 1/2 gallons per 20 gallons water. 16 oz. per gallon water. Apply for full coverage and thorough wet contact. Apply preferably to young growth and up to seeding of weeds. Repeat application as necessary to maintain control, particularly on grass and established weeds. Avoid spray contact with foliage or fruit of [illegible] ornamental gardens. Do not water treated areas for 24 to 36 hours after application.
