Dear Ann

I am 80 years old Railroa Retiree
My Wife is on Oxegyn so I have to
Stay at Home Base

Years Ago the New Haven Railroad
Ran a Line From Olnyville R.I. to Pascoag R.I.
To Kill the Vegetation and Foilage
on this Line They Used a Substance
Like Agent Orange

This Substane Plus the Diesel
Fumes From using High ~~Sulfe~~ Sulfur
Fuel Oil Can Cause Dioxin
Can also Cause CANCER

Centerdale R.I. was on
This Line

I hope I can help you

As Ever
James F McEnery

PS. My address is on the
Enclosed Photo

Mr. James F. McEnery
Mrs. Lillian F. McEnery

CAUSE OF DIOXIN in The

PICTURE SHOW **WOONASQUATUATUCKET**

CHRIS BURGER evokes the flavor of a winter day in urban New England almost three decades ago with this March 1962 view of New York, New Haven & Hartford's Brayton Avenue yard just west of downtown Providence, R.I. Two usual denizens, a Fairbanks-Morse H15-44 and an Alco switcher, are the major tools with which the New Haven railroad men will toil this day. ■

The tall fellow is me all 6'4" →
Short one is Luigi Tremettozi
