ACTION REQUESTED

S. C. Johnson & Son, Inc. submitted two amended efficacy studies (MRIDs 459304-01 & -02) and requested that these studies be included in the registration file for this registered end-use product. These are final reports that have been previously submitted, reviewed, and accepted by the Agency in the form of interim reports used to support the registration. Minor revisions were made to the final reports that have no bearing on the outcome of the studies and are administrative in nature. The submitted reports replace MRIDs 450766-01 and 454881-01.

No additional data are required in regard to this submission. Photocopies of the studies are attached for inclusion into the product registration jacket.

NO DERS WERE WRITTEN FOR THIS REVIEW
