

DEC 18 1985

NOTE TO: Bill Burnam

Status Of Data Call In Responses on Merphos as of 12/18/85

Date of Notice: May 15, 1984

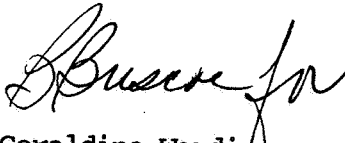

REQUIREMENTS: Chronic Feeding 2 species  
Oncogenicity 2 species  
Reproduction 1 species  
Teratogenicity 2 species

Notice identified 9 registrants.

- 1) 359-691 Rhone-Poulenc technical registration---DCI Program is  
693 preparing a Notice of Intent to Suspend (NOITS)
- 2) 1842-194 Triangle Chem. -end use formulator - status pending
- 3) 2224-7049 Mobil Chem. - Intrastate registrations - status pending  
7519 for end use formulated product
- 4) 2749-253 Aceto - end use formulated product. No response -  
NOITS is being prepared
- 5) 4581-212 Agchem - NOITS is being prepared
- 6) 5905-64 End use formulated product - status pending
- 7) 9779-38 Riverside Chem. - end use formulated product - status pending
- 8) 10163-8 End use formulated product status pending  
11
- 9) 876-331 End use formulated product - registrant requested  
a NOITS. NOITS is being prepared

#### Summary

Technical producers have not submitted a valid commitment to generate the required data. If producers do not comply with the Notice requirement and the Notice of Intent becomes final, the registrants of end use formulated products then become subject to chronic toxicological data requirements.
