The Health Effects Division's (HED's) Reregistration Branch 3 (RRB3) has corrected 2 typographical errors in Appendix 1.0 of the propazine human health risk dated 5/31/05. Specifically, the word "simazine" was changed to propazine in the introductory sentence preceding the table, and the caveat "in progress" was moved from guideline study 870.4200b to 870.4100b. These corrections to this table do not change the conclusions of the risk assessment dated 5/31/05.
