6. STUDY PARAMETERS:

Scientific Name of Test Organism: *Colinus virginianus*
Age of Test Organisms at Test Initiation: 18 weeks
Definitive Study Duration: 22 weeks

7. CONCLUSIONS: This study is scientifically sound and meets the guideline requirements for an avian reproduction study using northern bobwhites. The NOEC was determined to be 50 ppm ai based on significant reductions in mean hatchling weight at the 150 and 1000 ppm ai test concentrations when compared to the control.
