Pesticide Petition No. 960821

Mr. Charles F. Gordon  
Registration and Petition  
Coordinator  
Rohm and Haas Company  
Independence Mall West  
Philadelphia, Pennsylvania 19105

This refers to Pesticide Petition No. 960821 requesting temporary tolerances for residues of the herbicide RH-315 and its metabolites.

Our chemists advise that a preharvest interval of 60 days, rather than the proposed 45 days, is necessary for the forage legumes receiving less than 1.5 lbs/acre to assure residues below the proposed tolerance level.

We will be glad to give further consideration to this petition upon receipt of revised directions for use.

Sincerely yours,

Drew M. Baker, Jr.  
Petitions Control Branch  
Bureau of Science
