MEMO

July 25, 1989

Subject : Duplicate Request for Review of American Cyanamid's Response to FRSTR

To : R. Rubis  
Chemical Support Branch  
Special Review Re-registration Division

From : Jim Akerman, Chief  
Ecological Effects Branch  
Environmental Fate and Effects Division

It appears that we were sent American Cyanamid's response to the Terbufos FRSTR under two separate record numbers, 240667 and 243071. Therefore, we are returning 243071 since we have already completed its review. If you have any questions on this matter please contact Ed Fite (557-1746) of my staff.
