2000 Market Street  
Philadelphia, PA 19103

Dear Mr. Carson:

Subject: Command 4EC herbicide  
EPA Reg. No. 279-3053  
Re: Alternate Formula Request  
Your Resubmission Dated October 26, 1990

The Agency has completed its review of the above mentioned resubmission and has found it to be unacceptable for the following reason:

There are 2 labels for this product: Label claim 46.7%, (accepted 4/24/90) which supports the basic and alternate formulations dated 11/10/89, and label claim 47.1% (accepted 5/17/90) which supports 2 alternate formulations dated 3/21/90. Each label claim is supported by the nominal concentrations of the active ingredient in the respective formulations. You may have only one ingredient label claim for one registration and your alternate formulations should be consistent with your basic formulation (i.e., same % weight of active ingredient) with the label declaration based on the nominal concentration of the active ingredient.

You must resolve this issue before the above mentioned submission can be accepted. Further action awaits your reply.

Sincerely yours,

Robert J. Taylor  
Product Manager (25)  
Fungicide-Herbicide Branch  
Registration Division (H7505C)
