**INTRODUCTION:**

The registrant, Management Contract Services, Incorporated, is submitting an application to register the proposed end-use product, TC 252. The active ingredient in this product is lambda-Cyhalothrin [REDACTED] at a label nominal concentration of 9.7% a.i. This product is intended for use as an insecticide. In support of this request, the registrant has submitted a basic Confidential Statement of Formula (CSF) dated 12 Apr 2006, a draft label, and product chemistry data contained in MRID#s 468316-01 and 468498-01. The Technical Review Branch (TRB) has been asked to review this submission.

**SUMMARY OF FINDINGS**

TRB has reviewed this submission and reports the following findings:

1. This product is produced from a registered source of the active ingredient.
2. All inert ingredients are cleared for use in formulated pesticide products.
3. The nominal concentration of the active ingredient listed on the proposed CSF and the draft label are the same.
4. The draft label contains the appropriate storage and disposal statements. In addition, the draft label contains the appropriate physical and chemical hazard statement with regard to use around electrical equipment due to electric shock.
5. The active ingredient's certified limits as proposed on the basic CSF are acceptable.

PRODUCT INGREDIENT SOURCE INFORMATION IS NOT INCLUDED

**CONCLUSIONS:**

TRB has reviewed this submission and concludes the following:

- ✓ 1. The basic formula CSF for the proposed end-use product, TC 2531 dated 12 Apr 2006 is acceptable.
2. This submission satisfies the data requirements as specified in 40 CFR 158.155, 158.160, 158.165, 158.167, 158.175, and 158.180 with respect to product identity and composition, description of materials used to produce the product, description of formulation process, discussion of formation of impurities, certified limits, and enforcement analytical method.
3. This submission satisfies the data requirements as specified in 40 CFR 158.190 with respect to physical and chemical properties. The data requirements for storage stability and corrosion characteristics are not satisfied. The registrant indicates that studies are in progress at this time. Inform the registrant that these data must be submitted to the Agency for review upon completion.
