OFFICE OF  
PREVENTION, PESTICIDES AND  
TOXIC SUBSTANCES

MEMORANDUM

SUBJECT: Reevaluation of Exposure Modeling for Flumetsulam

FROM: Daniel Rieder, Section Head, Section 3 *Daniel Rieder*  
Ecological Effects Branch  
Environmental Fate and Effects Division H7507C

TO: Joanne Miller, PM  
Herbicide/fungicide Branch  
Registration Division H7505C

The EFGWB has indicated to me verbally, that they are reevaluating their exposure modeling for flumetsulam. Their conclusions may change EEB's conclusions on whether endangered plants may be at risk from use of flumetsulam on corn and soybeans. If they determine the exposure levels are lower, the EEB will reconsider whether endangered plant levels of concern are still exceeded.

They did not tell me when they would complete this evaluation, but indicated they were working on it now.
