

contact with skin. If sensitization reactions result consult a physician. Causes substantial but temporary eye damage. Do not get into eyes or on clothing. Wear goggles or safety glasses. Wash thoroughly after handling. Avoid contamination of feed and foodstuffs. Do not use on household pets or humans. Do not allow children or pets onto a treated area until the treated area such as grass or soil has dried. Keep out of reach of domestic animals. DO NOT USE IN THE HOME.

#### STATEMENT OF PRACTICAL TREATMENT

If swallowed - Do not induce vomiting. Administer a slurry of water and activated charcoal. Seek immediate medical attention.

If on skin - Remove contaminated clothing and wash skin immediately with soap and warm water.

If eyes are contaminated - Wash with flowing water for at least 15 minutes. If poisoning occurs, obtain prompt medical aid.

Wear a long-sleeved shirt and long-legged pants when spraying. Spray with the wind to your back. Do not spray on windy days. If clothing becomes wet from spray during use, remove clothing after spraying, wash affected body areas thoroughly with soap and water, and launder clothing before wearing again.

#### ENVIRONMENTAL HAZARDS

**BEST AVAILABLE COPY**

This pesticide is highly toxic to birds, fish, and wildlife including waterfowl. Birds and waterfowl feeding or drinking on treated areas may be killed. Because of the migratory habits of certain Atlantic Coast waterfowl, do not apply this product in Nassau County, New York, between November 1 and May 20. Do not exceed maximum permitted label rates. Rates above those recommended significantly increase potential hazards to birds and waterfowl. Avoid overlapping of sprays. Where irrigation (watering) is recommended apply a minimum of 0.25 inch of water immediately after application. Stop irrigation before puddling occurs. Keep out of lakes, streams, ponds, tidal marshes and estuaries (except for effluence from treated watercress beds). Do not apply to water that will be used for recreational purpose and human and livestock consumption. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where fish, shrimp, crab, and other aquatic life are important resources. This pesticide is highly toxic to bees exposed to direct treatment or residue on blooming crops or weeds. Do not apply this pesticide or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

#### PHYSICAL OR CHEMICAL HAZARDS

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.
