FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY

sixopine®

A PINE CLEANSER DISINFECTANT AND DEODORANT

ACTIVE INGREDIENTS:

Pine Oil	62.0%
Soap	22.2%
Isopropanol	3.0%

INERT INGREDIENTS:	12.8%
	<u>100.0%</u>

SIXOPINE, when tested by the A.O.A.C. method, is guaranteed to have a phenol coefficient of 6.0 against Salmonella typhosa.

IMPORTANT

To make a satisfactory emulsion always use fresh tepid water. Pour the required quantity of SIXOPINE into the vessel first, then add tepid water and mix well.

CAUTION: Keep Out Of Reach Of Children.
 Harmful if swallowed.

manufactured by EPA Reg. No. 52-32AA

WEST CHEMICAL PRODUCTS, INC.

42-16 WEST STREET LONG ISLAND CITY, N.Y. 11101

DIRECTIONS FOR USE:

FOR GENERAL CLEANING: Mix one and one-half ounces (three tablespoonfuls) of SIXOPINE to one gallon of warm water for mopping, scrubbing, cleaning and sprinkling floors, walls and cellars in office buildings, restaurants, factories, mills, schools, etc.

WATER CLOSETS AND URINALS: The seat and floor around the water closets and urinals should be scrubbed regularly with a solution of one and one-half ounces (three tablespoonfuls) of SIXOPINE to one gallon of warm water.

After cleaning, to deodorize, flush the closet and urinal bowls with a solution allowing it to remain in the bowl for a short time.

SINKS AND WASH BASINS: Scrub above and beneath the sink with a solution of one and one-half ounces (three tablespoonfuls) of SIXOPINE to one gallon of warm water. Then wash out the sink with the same solution, pouring the remainder of the solution into the drain pipe.

GARBAGE CANS: As a deodorant, thoroughly soak the can with a SIXOPINE solution, one and one-half ounces (three tablespoonfuls) to one gallon of warm water. Rinse the empty can with some of the solution and leave the wash in the can.

When used for disinfecting purposes mix one ounce (two tablespoonfuls) of SIXOPINE to one gallon of warm water and apply to the previously cleaned surface.

Rinse empty container thoroughly with water and discard it.
