DIRECTIONS

To control airborne insects, such as flies, mosquitoes, gnats, and flying moths, release spray upwards and in all directions into air of closed room, about 4 to 6 seconds for every 1,000 cu. ft. After treatment leave room, keep closed for 15 minutes, and then ventilate thoroughly.

To control ground insects, such as roaches, ants, silverfish, spiders, millipedes, and centipedes, direct spray into hiding places of the pests. Spray into cracks and crevices of woodwork, walls, floors, and baseboards; also spray around door and window frames, behind and underneath skirting, cabinets, refrigerators, sinks, stoves, garbage pails, and other places where these pests may hide.

To control bed bugs, spray all parts of bedframe, slats, and springs and into cracks of walls and floor of room. Spray tufts and seams of mattress. Do not spray general surface of mattress. Air bedding at least 4 hours before using.

To control fleas and ticks, spray animal quarters, making sure that cracks, crevices, and bedding are thoroughly covered with spray. Do not spray on animals.

To control clothes moths and carpet beetles, spray clothes, rugs, and carpets thoroughly. Spray inside of closets and storage cabinets and keep closed for 15 minutes. Spray once each month, if needed.

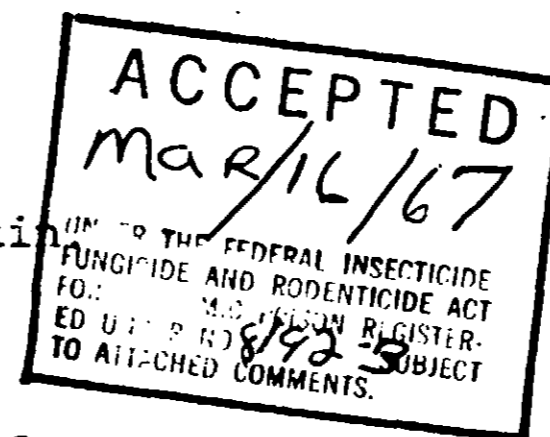

To control wasps and hornets in nests, spray nests directly and freely at night.

For outdoor use against certain crawling and flying insects, spray into grass and scrubbery, around patio, barbecue pit, or picnic table. Spray when air is calm and repeat as often as necessary.

CAUTION

Harmful if swallowed, inhaled, or absorbed through skin.
Avoid repeated or prolonged skin contact.
Avoid prolonged breathing of spray mist.
Wash thoroughly with soap and water after handling.
Do not contaminate food, feedstuffs, or water supplies.
Do not spray on animals.
Keep out of reach of children.
Do not apply to areas contacted frequently by children.

Warning: Contents are under pressure; high temperature may burst container. Do not expose to direct sunlight, radiators, stoves, or other sources of heat. Do not puncture can. Do not throw can into fires or incinerators.
