AND POLLUTION PREVENTION

Senoret Chemical Company, Inc.  
c/o Ms. Cristina Griffin  
Delta Analytical Corporation  
12510 Prosperity Drive, Suite 160  
Silver Spring, MD 20904

DEC 29 2011

Dear Ms. Griffin:

Subject: Amendment – Consolidate prior approved labels  
Terro Carpenter Ant & Termite Killer  
EPA Reg. No. 149-15  
Your submission dated December 16, 2011

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) section 3(c)(7)(a), is acceptable and a stamped copy is enclosed for your records.

Sincerely,

A handwritten signature in cursive script that reads "Richard Gebken".

Richard Gebken  
Product Manager 10  
Insecticide Branch  
Registration Division (7505P)

# TERRO<sup>®</sup> CARPENTER ANT AND TERMITE KILLER\*\*\* [Alternate Brand Name: TERRO<sup>®</sup> STINK BUG KILLER]

- Contains Synergized Permethrin and Tetramethrin
- Provides Quick Killing Action and Residual Control
- Use Indoors and Outdoors
- Use Indoors
- Use Outdoors
- Kills Fire Ants
- Kills Fleas - Roaches - Ants
- Kills Fleas
- Kills Roaches
- Kills Ants
- Kills on Contact - Kills Fast
- Kills Hidden Bugs
- Kills Bugs You See and Even the Ones You Don't
- A broad spectrum insecticide highly effective against Ants, Bees, Carpenter Ants, Carpet Beetles, Centipedes, Cockroaches, Crickets, Earwigs, Firebrats, Fleas, Flour Beetles, Grain Beetles, Ground Beetles, Millipedes, Mole Crickets, Moths, Pillbugs, Silverfish, Sowbugs, Spiders, Stink Bugs, Termites, Ticks and many other similar crawling insects.
- Water-Based Formula
- Non-Staining
- No Oily Residues
- No Unpleasant Odor
- Protects for up to 4 weeks
- Also kills Carpenter Bees, Woods Wasps, Beetles and Borers
- [Also] Kills Stink Bugs
- [Also] Kills [Multicolored]Asian Lady Beetles [Lady Bugs] [Lady Beetles] [Lady Bird Beetles]
- Shake Well Before Using

**ACTIVE INGREDIENTS:**

Tetramethrin.....	0.20 %
Permethrin*.....	0.50 %
Piperonyl Butoxide** .....	1.00 %
<b>OTHER INGREDIENTS:</b> .....	<b>98.30 %</b>
<b>TOTAL</b> .....	<b>100.00 %</b>

\*Cis/trans ratio: min. 35% (+/-) cis and max. 65% (+/-) trans.  
 \*\*Equivalent to min. 0.8% (butylcarbityl)(6-propylpiperonyl) ether and 0.2% related compounds.  
 \*\*\*Kills worker or winged forms of termites. See [back][side] panel for additional information.

**PRECAUCION AL USARIO:** Si usted no lee ingles, no use este producto hasta que la etiqueta le haya sido explicada amplimente.  
**(TO THE USER:** If you cannot read English, do not use this product until the label has been fully explained to you.)

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

## PRECAUTIONARY STATEMENTS Hazard to Humans & Domestic Animals

**CAUTION:** Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID	
If on skin or clothing:	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	

### Environmental Hazards

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

### Physical and Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard. Do not use on surfaces that can be harmed or stained by water.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**GENERAL INFORMATION:** Terro® Carpenter Ant and Termite Killer [This product] provides effective control of pests in and on buildings and structures and their immediate surroundings and on modes of transport. Permitted areas of use include, but are not limited to: apartment buildings, homes, hotels, hospitals, nursing homes, schools, industrial buildings, laboratories, mausoleums, private residences, utilities, and in non-food/feed areas of food/feed handling establishments, and on: vessels, rail cars, buses, trucks and trailers.

#### General Precautions and Restrictions

Do not allow adults, children, or pets to enter the treated area until sprays have dried. Do not apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur, except as directed by this label.

Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held.

In the home, cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. Terro® Carpenter Ant and Termite Killer [This product] may be used as a crack and crevice treatment or as a spot application in non-food/feed areas. All areas where insects hide or through which insects may enter should be treated.

For use in non-food areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Do not apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur, except as directed by this label.

Hospital and/or nursing home patients must be removed from their rooms while treatment is being applied and must not be allowed to return until all treated surfaces have dried. School classrooms must be treated only when students are not present, and all treated surfaces must be dry before the students are allowed to return.

Remove pets and cover fish aquaria before spraying. Prevent re-entry of dogs and cats into treated area until spray deposits are dry.

**SURFACE SPRAY APPLICATION:** Hold container upright with nozzle away from you. Press valve down and spray as directed. Spray surface until slightly wet (at a rate of 4 ounces product to treat approximately 25 square feet of surface area).

**CRACK & CREVICE INJECTION:** Hold container upright and tilt extension tube to a 90° angle with can and inject into cracks and crevices where insects may be hiding, living and breeding. Place injection tip ½ inch into cracks, crevices, holes and other small openings where insects may be a problem. Release a one-second spray per spot. In serious infestations, if possible, place spots approximately 12 inches apart. In light infestations or for preventative treatment, place spots approximately three feet apart. In long running cracks, move the injector tip along the crack while spraying. Move at the rate of one linear foot per second in heavy infestations and three feet per second in light infestations. See the additional directions below for effective control of specified insects.

[To kill ] *Cockroaches* (including adult and immature stages of both non-resistant and organophosphate and carbamate resistant strains), *Ants*, *Booklice*, *Boxelder Bugs*, *Crickets*, *Dermestids*, *Firebrats*, *Fleas*, [Multicolored] *Asian Lady Beetles* [Lady Bugs] [Lady Beetles] [Lady Bird Beetles] *Silverfish*, *Stink Bugs*, *Ticks* and *Sowbugs*: Apply as a spot or crack and crevice treatment. Apply thoroughly to all areas where these pests crawl and hide, especially in cracks and crevices, and hidden surfaces around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases and in similar areas.

*Ants*: Spray freely around ant trails, doors and windows and other places where ants enter premises, around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray freely on and around debris.

*Carpenter Ants*: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Inject into wall voids and infested wood through existing openings or newly drilled small holes.

*Brown Dog Ticks* and *Fleas* IN BUILDINGS: Apply to infested areas such as pet beds and resting quarters, nearby cracks and crevices, under the edges of rugs and floor coverings, between and under cushions of upholstered furniture and other areas where these pests may be present. Remove old bedding of pets and replace with clean fresh bedding after treatment of pet areas. Do not apply directly on animals.

*Spiders*: Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

*Centipedes*, *Earwigs*, *Ground Beetles*, *Millipedes*, *Mole Crickets*, , [Multicolored] *Asian Lady Beetles* [Lady Bugs] [Lady Beetles] [Lady Bird Beetles] *Pillbugs*, *Sowbugs*, *Stinkbugs* and *Ticks*: Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

PANTRY PESTS - *Grain Beetles (Rusty, Merchant and Saw-toothed)*, *Flour Beetles (Red and Confused)*, *Chocolate Moths*, *Cigarette Beetles*, *Clover Mites*, *Cluster Flies*, *Drugstore Beetles*, *Elmleaf Beetles*, *Rice Weevils*, *Lesser Grain Borers*, *Spider Beetles* and *Tobacco Moths*: Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of food and utensils.

*Carpet Beetles (Black, Furniture and Varied)*: Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

*Webbing Clothes Moths*: Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not apply to clothing.

PESTS ON OUTSIDE SURFACES OF BUILDINGS: For control of building infestation due to *Ants*, *Clover Mites*, *Crickets*, *Earwigs*, *Millipedes*, [Multicolored] *Asian Lady Beetles* [Lady Bugs] [Lady Beetles] [Lady Bird Beetles] *Stink Bugs* and *Sowbugs (Pillbugs)*. Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages and refuse dumps.

**Application Restrictions for Outdoor Use**

Do not water the treated area to the point of run-off. Do not make applications during rain. All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: (1) Treatment to soil or vegetation around structures; (2) Applications to building foundations, up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only. Not for use in outdoor residential misting systems.

*Fire Ants*: To treat mounds, use soil injector. To maximize spray distribution, insert injector into the mound full length if possible. Inject the mound at 3-6 sites at a rate of 5-10 seconds spray per site. For very large mounds (over 36 inches in diameter), increase the number of injection sites. Space injection sites in a circular pattern on the mound surface with one site in the center. To quiet active ants on mound surface, sweep surface with spray from a distance of 18 inches. For best results, apply in cool weather or in early morning or late evening hours. Treat new mounds as they appear.

Localized Treatment of Wood-Infesting Insects: *Beetles and Borers* (such as the following families: *Anobilidae*, *Bostrichidae*, *Buprestidae*, *Cerambycidae*, *Lyctidae*, *Oedemeridae*, *Sesliidae*), *Carpenter Bees*, *Termites* and *Wood Wasps*: Locate area of infestation and/or insect tunnels and cavities. Using a crack & crevice tip, spray into tunnels, galleries and inaccessible closed voids. In infested areas, small holes should be drilled eight to ten inches apart to insure thorough insecticide gallery treatment. Be sure not to contact electrical wiring or plumbing when treating. For *Carpenter Bees*, seal the entrance holes with small pieces of stainless steel wool after application.

\*\*\**Termites*, *Carpenter Ants* and *Carpenter Bees*: For termites, the purpose of such applications is to kill workers or winged forms which may be present in the treated areas at the time of application. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but are merely a supplement. Not recommended as sole protection against termites. For active infestations, get a professional inspection.

**[OPTIONAL USER INSTRUCTIONS]**

[See reverse side for directions]

[Read full label before applying.]

[Follow Crack & Crevice Injection directions on can.]

[Use of this product is subject to the use precautions and limitations imposed by the label affixed to the can.]

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Do not store near heat or open flame. Store in cool dry area away from children.

**Pesticide Disposal and Container Handling:** Do not puncture or incinerate! **If empty:** Offer for recycling if available or place in trash. **If partly filled:** Call your local solid waste agency for disposal instructions.

*[Master label note, not part of labeling: Product must bear a batch code; may be placed anywhere on label or container.]*

**IMPORTANT: READ BEFORE USE**

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once.

By using this product, user or buyer accepts the following conditions, disclaimer of warranties and limitations of liability.

**CONDITIONS:** The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Senoret Chemical Company, Inc. All such risks shall be assumed by the user or buyer.

**DISCLAIMER OF WARRANTIES:** SENORET CHEMICAL COMPANY, INC. MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL. No agent of Senoret Chemical Company, Inc. is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. To the extent permitted by law, Senoret Chemical Company, Inc. shall not be liable for special, incidental or consequential damages resulting from the use or handling of this product.

**LIMITATIONS OF LIABILITY:** TO THE EXTENT PERMITTED BY LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED THE PURCHASE PRICE PAID, OR AT SENORET CHEMICAL COMPANY, INC. ELECTION, THE REPLACEMENT OF PRODUCT.
