Mark Mongiovi
Senior Manager, Regulatory Affairs
Senoret Chemical Company, Inc.
69 N. Locust Street, P.O. Box 327
Lititz, PA 17543

Subject: Notification per PRN 98-10 – Add California Prop 65 Language
Product Name: Terro® Dual Bait Stations
EPA Registration Number: 149-21
Application Date: March 5, 2018
Decision Number: 538888

Dear Mr. Mongiovi:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, please contact Melody Banks at (703) 305-5413, or by email at Banks.Melody@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Elizabeth Fertich". The signature is written in a cursive style with a large initial "E".

Elizabeth Fertich, Product Manager 04

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after use and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID	
If In Eyes:	<ul style="list-style-type: none">- Hold eye open and rinse slowly and gently with water for 15-20 minutes.- Remove contact lenses, if present, after the first five minutes, then continue rinsing eye.- Call a poison control center or doctor for treatment advice.
Have the product or label with you when calling a Poison Control Center or doctor or going for treatment. In case of emergency, for additional information call 800 858 7378.	

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow bait to enter or run off into storm drains, drainage ditches, gutters or surface waters.

HOW IT WORKS

[Ants*] [listed pests] [and] [roaches] [and] [silverfish] will enter the [easy-to-use] [pre-filled] station to feed on the bait. An ant's* anatomy allows for effective transport and consumption of liquids. Ants* will come in large numbers at first, but will soon disappear. The liquid bait is specifically formulated to allow worker ants* to consume the product and survive long enough to carry the bait to the nest and deliver a dose to the rest of the colony.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DO NOT USE in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Avoid contamination of feed and foodstuffs. Place bait in areas inaccessible to children and pets.

FOR USE IN AND AROUND: Homes, Hospitals, Restaurants, Apartments, Grocery Stores, Institutional Buildings, Schools, Cafeterias, Warehouses, Storage Areas, Food Processing Plants, Mobile Homes, Boats, Military Bases, Theaters, Nursing Homes, and on Military, Commercial, and Cruise Ships.

ATTRACTS AND KILLS [[LISTED COMMON HOUSEHOLD] ANTS*] [&] [ROACHES] [LISTED PESTS] [LISTED INSECTS] [INCLUDING]: **Ants:** Acrobat, Allegheny, Argentine, Big headed, Cornfield, Crazy, Ghost, Little black, Odorous house, Pavement, Pyramid, Thief, White footed, and other sweet eating ants* (except fire ants, pharaoh ants, carpenter ants, and harvester ants); **Others:** Roaches, Silverfish.

USING TERRO® DUAL BAIT STATIONS: Remove other sources of food, like crumbs, sugar, and grease spots. Do not place bait stations where insecticide has recently been sprayed, as listed pests may avoid the bait stations.

Common areas to place bait stations include along baseboards, in corners of rooms and cabinets, on countertops, under and behind appliances, under sinks, around pipes and water sources, in pantry, on window sills and around doorways, near garbage cans, and along ant* trails.

1. [Break pre-filled TERRO® DUAL BAIT STATIONS bait stations apart from plastic frame.]
2. Hold bait station firmly with bait pack tab(s) facing up. [Break] [Twist] [Snap] [off] [open] the bait pack tab(s) being careful to not spill the bait.
3. [Using the retaining slots in the bait pack tabs, fold back the bait pack tabs and [secure] [attach] [lock] them to station].
4. Place bait station on flat surface [with bait pack tab(s) facing up] near where listed pests or their signs have been seen. Place additional TERRO® DUAL BAIT STATIONS bait stations anywhere ants*, roaches, and silverfish may enter your home. Heavily infested areas may require additional bait stations. [For best results, use [all] [number] bait stations to ensure sufficient supply for the listed pests.]
5. Monitor placements regularly but do not interfere with the listed pests or bait stations. Replace when bait is depleted or every 3 months.

The key to successful baiting is to ensure there is always a sufficient supply of TERRO® DUAL BAIT STATIONS [bait] when listed pests are present.

*except fire ants, pharaoh ants, carpenter ants, and harvester ants

[MASTER LABEL – BACK PANEL PAGE 2 OF 2]

For further information on successful pest control using the TERRO® brand of [[ant] [&] [insect] control] products, visit our web site (www.Terro.com).

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store in a cool dry place. Do not store where children or animals may gain access.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable Container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
