ACCEPTED

Jul 26, 1968

UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON REGISTRATION
ED UNDER NO. 226-45

226-45

DIRECTIONS — do not dilute .

Use 7 1/2 METHOXY GARDEN DUST throughout the garden for control of certain chewing insects. When dusting this insecticide it is very important to thoroughly cover the undersides as well as the tops of the leaves, for the average dusting use about 20 pounds of dust per acre. Repeat when necessary. Do not use on food crops later than 7 days of harvest; except on lettuce and broccoli do not use within 14 days of harvest; except on turnips do not use within 7 days of harvest; (14 days if tops are to be used as food or feed). This product should not be applied to beets within 14 days of harvest if the tops are to be used as food or feed.
