

8/11/83
726-150

4. A Symptoms of Poisoning section must be added to the label in close proximity to the STATEMENT OF PRACTICAL TREATMENT; we suggest the following:

"SYMPTOMS OF POISONING: headache, nausea, dizziness, loss of equilibrium, muscle spasms, difficulty in breathing, hyper-excitability and convulsions."

5. To the beginning of the "HAZARDS TO HUMANS AND DOMESTIC ANIMALS" section add the following:

"Harmful if swallowed."

Submit five (5) copies of your revised final printed labeling before you release the product for shipment with the amended labeling.

A stamped copy of the label is enclosed for your records.

If you hold a Federal registration, a supplemental registration, or a Special Local Needs registration, you may continue to produce new stocks of such products, using current labeling, until April 1, 1984. After that date, all remaining inventories of affected products will fall under the Existing Stocks provisions stated in our letter of October 28, 1983.

Sincerely yours,

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (TS-767C)

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Avoid breathing of dust. Avoid contamination of feed and feedstuffs. May cause irritation of nose, throat, eyes, and skin. Do not breathe dust or spray mist. During the mixing and loading of this product you wear the following protective clothing: long pants, long sleeves, rubber gloves and boots. Do not enter treated area without protective clothing until dusts have settled. Do not apply in a manner as to drift or through drift expose workers or other persons. The area being treated must be vacated by unpruned persons. In case of skin contact wash with water; for eyes get medical attention. Do not apply to wet crops. Do not feed forage or pastured with this material to dairy animals or to animals being milked for milk. **KEEP AWAY FROM FIRE AND SPARKS.** Store in a dry place.

PR notice 83-2

This product is toxic to fish and wildlife. Keep out of lakes, streams, and ponds. Do not apply when weather conditions favor drift from areas treated. This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agriculture Extension Service.

STORAGE AND DISPOSAL

HAZARD: Do not store in areas of extreme heat or cold. Protect from moisture and extreme humidity.

DISPOSAL OF PESTICIDE: Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are toxic; improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use or according to label instructions, contact your State Pesticide or Environmental Control Agency or the nearest EPA waste representative for the appropriate EPA hazardous waste disposal procedures. Do not use or dispose of this product in any way not specified on the label.

PR notice 83-3

DISPOSE OF COMPLETELY EMPTY CONTAINER AND EQUIPMENT.
Dispose of empty bag in a sanitary landfill or by incineration, or, if
allowed by State and local authorities, by burning. If burned, stay
out of smoke.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner
inconsistent with its labeling.

} PR Notice
83-2

DO NOT MIX WITH WATER.

At each dusting the plants should be covered thoroughly, also the ground
covered at the base of the plants. Use approximately 35 lbs per acre
for each application or when plants are thoroughly covered with a
light film of dust.

CUCUMBERS - Striped and Spotted Cucumber Beetles, Cucumber Melon Worms,
Pickle Worms, Anthracnose, Downy Mildew. The first dusting should be
made when the plants first break through the ground, and repeat dusting
5 days later. Repeat 5 or more dustings at 7 to 10 day intervals to
within 1 day of harvest. Remove excess residues from edible parts by
washing, brushing or other effective means at harvest.

OFFICE OF
PESTICIDES AND TOXIC SUBSTANCES

Mr. Michael Meredith
Tobacco States Chemical Co., Inc.
P.O. Box 12530
Lexington, KY 40583

300 / 117208
17 / 3

Dear Mr. Meredith:

Subject: Lindane RPAR
Tobacco States Brand 8-1 Cuke Dust
EPA Reg. No: 226-135
Appl. Date: November 10, 1983

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

1. Immediately preceding "This product is toxic to fish..." insert the following heading: "ENVIRONMENTAL HAZARDS".
2. Revise the beneficial insect caution appearing under the heading "ENVIRONMENTAL HAZARDS" as follows:

"This pesticide is highly toxic to bees exposed to direct treatment or to residues remaining on the treated area. Do not apply when bees are actively visiting the crop, cover crop, or weeds blooming in the treatment area. Applications should be timed to provide the maximum possible interval between treatment and the next period of bee activity."

3. A STATEMENT OF PRACTICAL TREATMENT must be added to the labeling. We suggest the following statement, however, if your toxicological data suggests otherwise, please submit a draft STATEMENT OF PRACTICAL TREATMENT for prior approval:

"STATEMENT OF PRACTICAL TREATMENT

If swallowed-Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled- Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin- Remove contaminated clothing and wash affected area with soap and water.

If in eyes- Flush eyes with plenty of water. Call a physician if irritation persists."
