PESTICIDE

ACCEPTED
OCT 13, 1967
UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON CONTROL
ED UNDER NO. 226-173
TO ATTACHED COMB

DIRECTIONS FOR USE

Apply the granules evenly over the bedding for swine at the rate of 1/2 pound per 100 square feet of area. The granules may be applied with a scoop or a can. Mixing with the bedding is not necessary. One treatment will control the hog louse infestation when the granules are applied to treated bedding regularly.

Replace the treated bedding with clean, untreated bedding as often as possible, including the way from the treated bedding two weeks prior to slaughter.

REGISTERED UNDER THE FEDERAL
PESTICIDE ACT
