Flies, Spiders, Ants, Mosquitoes,
and other household pests.
Also kills flying insects.

NET WEIGHT 13 OUNCES

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS AND DIRECTIONS.

DIRECTIONS

TO OPERATE: Remove protective cap. Hold container in upright position to spray. Press nozzle directly at the wasp or hornet nest or area to be sprayed. For best results spray insect nests or inhabited areas until wet. Follow your arm's length as the spray pattern is narrow. Do not use as a general spray. For outside use only. **DO NOT** use inside living quarters. Do not spray livestock. Avoid spraying plant foliage as injury may occur.

FOR LONG DISTANCE SPRAYING—8 to 12 FEET (CONTAINER AT ARMS LENGTH): WASPS, BEES, FLIES, SPIDERS—Infecting patches, garages, under eaves of dwellings, barns and similar structures. Best results are obtained when applications are made in early morning or evening when the pests are in or congregating around nests. Aim directly at the nest and apply until wet. Insects hit directly will drop in 2 to 3 seconds. If spots crawling over treated surfaces will die soon after.

HORNETS AND WASPS are aggressive insects especially when disturbed. Spray Hornets and Wasps when they are at rest or when direct hits are assured. Do not attempt to spray Hornets or Wasps on the wing.

FOR SHORT-RANGE AND RESIDUAL SPRAYING (14 TO 16"): Depress valve lightly and hold approx. 14 to 16" from surface. Spray to the point of run-off: doorsills, window sills, porches and other surfaces where bothersome pests such as flies, mosquitoes, flying insects, spiders, earwigs and ants congregate.

CAUTION: Harmful if swallowed. Avoid breathing spray mist. May be absorbed through skin. Avoid contact with skin. In case of contact, wash immediately with soap and water. Avoid contamination of feed and food stuffs. Do not use on food, pets or humans. Do not spray on plastics, asphalt or furniture. Do not use or store near heat or open flame.

WARNING: FLAMMABLE—Contents under pressure. Do not puncture. Exposure to high temperature may cause bursting. Keep at room temperature away from direct sunlight, radiators, stoves, hot water and other heat. Never throw container into fire or incinerator.

NOTICE: Buyer assumes all responsibility for safety in use not in accordance with directions.

Active ingredients: DDT, Dieldrin, Pyrethrin, Permethrin, Cyfluthrin, Bifenthrin, Fenprophethrin, Deltamethrin, Cypermethrin, Resmethrin, Cyfluthrin, Fenprophethrin, Deltamethrin, Cypermethrin, Resmethrin.
