DANGER:
DO NOT TAKE INTERNALLY
DO NOT INHALE
DO NOT GET ON SKIN

POISON

If Swallowed. Give a Tablespoon of salt in a glass of warm water and repeat until vomit fluid is clear. Have victim lie down and keep quiet. CALL A PHYSICIAN IMMEDIATELY!

Note to Physicians: Emergency Information - call (415) 233-3737. This product contains both an organic-phosphate and a chlorinated hydrocarbon. Atropine and 2-PAM are antidotal, but will not block the CNS-stimulating effects of toxaphene. Barbiturate therapy may also be required to control muscular twitching and convulsions. If On Skin. In case of contact, remove contaminated clothing and immediately wash skin with soap and water. Eye Contact. Immediately flush eyes with plenty of water for 15 minutes.

DANGER: Poisonous If Swallowed, Inhaled or Absorbed Through Skin! Wear a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration (formerly the U.S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part 11. Rapidly Absorbed Through Skin! Do not get in eyes, on skin or on clothing. Wear natural rubber gloves, protective clothing and goggles. In case of contact, wash immediately with soap and water. Wash hands, arms, and face thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and hot water before re-use. Keep all unprotected persons out of operating areas or vicinity where there may be danger of drift. Vacated areas should not be re-entered until drifting insecticides and volatile residues have dissipated. Do not store next to feed or food, or transport in or on vehicles containing foodstuffs or feeds. DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME. Do not use on sorghum (milo). Do not apply under conditions involving possible drift to food, forage or other plantings that might be damaged or the crops thereof rendered unfit for sale, use or consumption.

This product is toxic to fish, shrimp, crabs and wildlife. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources. Birds feeding on treated areas may be killed. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

CELERY: Armyworms, Aphids, Leafhoppers, Thrips—1 to 2 quarts per acre in 30 to 250 gals. water by ground application; 3 to 10 gals. water by air application. Do not apply after plants start to bunch or after plants are half mature.

COTTON: EARLY SEASON—Plant Bugs, Fleahoppers—1 to 1½ pints per acre. Make 2 or 3 applications at 7-day intervals starting at the two-leaf stage. Thrip control only—¾ to 1 pint per acre. Cutworms—1½ to 2 pints per acre. **MID-SEASON—**Overwintering Boll Weevils, Plant Bugs, Aphids, Cotton Leafworms—1½ to 2 pints per acre. Make repeat treatments at 7-day intervals as insect counts indicate they are necessary. **LATE SEASON—**Boll Weevils, Bollworms, Aphids—2 to 4 pints per acre, using higher rate for heavy Bollworm outbreaks. Repeat applications at 5 to 7-day intervals as insect counts indicate they are necessary. Do not apply within 7 days of hand picking. (Workers entering fields within 24 hours after application should wear protective clothing.) Do not graze dairy animals or animals being finished for slaughter in fields treated late in the season.

SOYBEANS: Aphids, Armyworms, Bean Leaf Beetles, Corn Earworms, Grasshoppers, Green Cloverworms, Stink Bugs, Velvetbean Caterpillars—2 pints per acre. Do not apply within 21 days of harvest. Do not apply more than 2 applications per growing season. Do not feed treated plants or ensilage made from treated plants to poultry, dairy animals, or animals being finished for slaughter. Do not feed soybean mill trash to livestock or poultry.

SMALL GRAINS (Wheat, Oats, Barley, Rice): Armyworms—2 pints per acre. Do not apply within 15 days of harvest. Do not feed treated forage to dairy animals or animals being finished for slaughter.

TOMATOES: Armyworms, Aphids, Leafhoppers, Hornworms, Tomato Pinworm, Tomato fruitworm, Russet Mites, Leaf Miners—1 to 2 quarts per acre in 30 to 250 gals. water by ground application; 3 to 10 gals. water by air application. Stink Bugs—2 quarts. Do not apply within 15 days of harvest.

CONDITIONS OF SALE: 1. Chevron Chemical Company (Chevron) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. Chevron neither makes, nor authorizes any agent or representative to make, any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond Chevron's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by Chevron under 1 above) resulting from handling, storage and use of this material.
