CAUTION: Harmful if swallowed. Avoid breathing dust. Avoid prolonged or repeated contact with skin. Wash thoroughly after using. Avoid storage near food or food products. Do not apply under conditions involving possible drift to food, forage or other plantings that might be damaged or the crops thereof rendered unfit for sale, use or consumption.

For use only by trained personnel and wildlife. For use only by trained personnel and wildlife. For use only by trained personnel and wildlife. For use only by trained personnel and wildlife.

seed row. Incorporate the granules into the top one inch of soil using press wheels, covering disks or trailing chains. For postemergence side-dress applications apply the granules in a 3 to 4-inch band on each side of the emerged corn plants 30 to 40 days after planting or when the plants are 8 to 10 inches high. Cover the granules with one inch of soil with covering disks or cultivator. **BROADCAST TREATMENT** — Use 13 to 27 pounds of BUX 15 Granular per acre. Apply as a uniform broadcast treatment prior to or at time of planting. Incorporate the granules into the top one inch of the soil using a harrow or disk.
