**ORTHO**

BUG-GETA Snail & Slug Pellets is specially formulated to attract and control snails and slugs. The highly permeated pellets are easy to use, clean to handle and economical. 1 lb. of BUG-GETA Snail & Slug Pellets will last 1000 sq. ft.

The presence of snails and slugs can be detected by their sticky excrement trails. They are night feeders and prefer damp, cool places in the ornamental garden, flowers, under boards or flower pots and around fences, hedges and bushes.

**DRY, COMPRESSED PELLET**                      **WET, EXPANDED PELLET**

**Application:** Sprinkle lightly with water after application. Each compressed pellet when moistened from wet ground, rain or water expands into an effective, pear attracting source of bait, which is less attractive to children or pets.  
**HOUSE DORMERS AND LATH HOUSES:** Distribute pellets on and beneath benches but do not place in pots or box windows. Joints are well established. Keep pellets from coming in contact with plants.  
**FRUITS AND VEGETABLES:** To control snails and slugs around the following fruits and vegetables apply to the soil surface around the plants. Do not contaminate edible parts.  
**FRUITS:** Apples, Apricots, Blackberries, Cherries, Citrus, Grapes, Peaches, Plums, Strawberries.  
**VEGETABLES:** Asparagus, Beans, Beets, Cabbage, Carrots, Corn, Cucumbers, Eggplant, Lettuce, Melons, Onions, Peas, Peppers, Potatoes, Radishes, Spinach, Squash, Tomatoes and Turnips.

**PRECAUTIONARY STATEMENTS:** HAZARDOUS TO HUMANS & THE ENVIRONMENT.

**CAUTION:** Harmful if swallowed. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wash thoroughly after use. Keep out of reach of children and domestic animals. **IMPORTANT:** KEEP PELLETS AWAY FROM CHILDREN, DOGS AND PETS. BAIT MAY BE ATTRACTIVE TO DOGS. COMBINE PELLETS DURING APPLICATION TO PREVENT THEM FROM BEING EATEN. THEY ARE BEING USED AND STORE UNDER CONDITIONS WHERE THERE WILL NOT BE A HAZARDOUS STATEMENT OF PRACTICAL TREATMENT.

If swallowed, contact physician, Poison Control Center, or emergency clinic before inducing vomiting. Give water to drink and induce vomiting by touching back of throat with finger or by administering syrup of ipecac. Do not induce vomiting or give any thing by mouth to an unconscious person. If medical advice cannot be obtained, take person and product container to the nearest emergency treatment facility. In case of eye contact, wash eyes abundantly with fresh water for at least 15 minutes. If a doctor is available, consult with doctor if irritation persists. For skin contact, wash skin with plenty of soap and water. If irritated, remove person from exposure area. **Call to Physician, Emergency Information—call 1-800-457-7027.**  
**ENVIRONMENTAL HAZARDS:** Do not apply directly to water to create surface water or prevent or to riparian areas below the mean high water mark. Do not contaminate water when cleaning or disposing of empty containers.  
**NOTICE:** Buyer assumes all responsibility for safety and use in accordance with directions.

**FOR HOME USE ONLY**  
**Kills Snails & Slugs**  
Remains effective after rain or sprinkling

**NET WT. 1 LB.**

**ORTHO**  
**BUG-GETA®** Snail & Slug Pellets

**DIRECTIONS FOR USE:** This is a new listing of Federal law to use this product in a manner inconsistent with its labeling.

**READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.**

**DIRECTIONS:** If ground is dry, water area to be treated thoroughly. Do not place pellets on grass.

Scatter the pellets around flowers, ornamental plants and lawn areas. Apply one pound of pellets to each 1000 sq. ft. Apply only to soil surface around plants. Do not apply to foliage or other plant parts. See back panel for directions for use around fruits and vegetables. Always wear protective gloves.

Best areas likely to be infested in the beginning of the spring planting season before damage occurs. Treatment every two weeks should give satisfactory control. During periods of high rainfall or frequent overcast, it may be necessary to treat more often.

**STORAGE AND DISPOSAL:** STORAGE: Keep pesticide in original container. Do not put contents in other containers or reuse old containers. Avoid contamination of food and feedstuffs. Store in a cool, dry place, preferably in a locked storage area.

**GENERAL PRECAUTION:** Partially filled cartons may be disposed of by securely wrapping original container in several layers of newspaper and discard in trash container. Do not reuse cartons. Discard carton in trash.
