

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Avoid contamination of feed and foodstuffs. Note to Physicians: Emergency Information - call (415) 233-3737.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F. may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

DIRECTIONS

SHAKE BEFORE USING. Point valve opening away from face and push button, holding container as upright as possible. Do not remain in treated areas and ventilate the area after treatment is completed. **NOTE:** Do not contaminate food, utensils, dishes or drinking water. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation. Remove pets, birds and cover fish aquariums before spraying. Do not spray on furniture.

INDOORS—FOR HOUSE FLIES, MOSQUITOES, AND GNATS

—Close all doors and windows. Point nozzle upward, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

INDOORS—FOR CRAWLING INSECTS—Roaches, fleas, earwigs, sowbugs, spiders and centipedes: Spray thoroughly into hiding places such as cracks, crevices, moist areas, firewood piles, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible. Repeat as necessary.

ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

OUTDOORS—TO KILL FLYING INSECTS—Spray areas infested with mosquitoes, gnats (midges), house flies, biting flies and pyralid and noctuid flying moths. Follow precautions listed above. Hold container 18 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic yard of space while moving away from treated areas. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

OUTDOORS—TO PROTECT ORNAMENTAL PLANTS—To control aphids, exposed thrips, adult whiteflies, leafhoppers, plant bugs, spittlebug and Japanese beetles on: ageratum, chrysanthemums, daisy, calceola, dogwood, euonymus, fatsyhedera, forsythia, geraniums, iris, ivy, marigolds, nasturtiums, peonies, rhododendrons, snapdragons, spirea, viburnum and zinnia, spray directly on insects. Hold container 18 inches from the infested plants. Spray in short spray bursts of one to three seconds or spray at the rate of one linear foot of growth per second. Direct spray to all sides covering foliage until slightly moist. Avoid heavy wetting. Repeat as necessary to obtain control.

Ornamental Quince, Juniper, Cotoneaster, Rose, Camellia, Azalea, Pyracantha and Ceanothus may also be treated to control the above pests, but use with extreme caution. Certain varieties have shown some leaf burn under certain conditions of use such as heavy dosage. Repeat as necessary to obtain control.

INDOORS—TO PROTECT HOUSE PLANTS: Spray infested African violets, philodendron, geraniums, begonias, coleus for control of listed pests. Place plants to be sprayed on newspaper away from walls, furniture and fabric. Repeat application as necessary.

OUTDOORS—TO CONTROL NUISANCE PESTS—ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

FLEAS: Same as directed for animal pests.

SPIDERS (including Black Widow Spiders): Direct short bursts of spray on spiders and repeat as necessary.

WASPS: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

ANIMAL PESTS—DOGS, CATS: Fleas—Apply directly to animals along back, under forelegs and on other areas. Part hair to contact skin and insure good coverage. Hold nozzle about one foot away while spraying. Apply until hair is thoroughly moist. Do not directly spray in eyes, ears or mouth of animal. To reduce reinfestation, thoroughly spray the animal's bedding and other resting areas. Treat these areas at the rate of two seconds per linear foot while spraying at a distance of 12 to 18 inches. Also spray entire inside surface of dog houses. Repeat as necessary.

STORAGE AND DISPOSAL

STORAGE: Store in a secure, preferably locked storage area away from heat or open flame.

DISPOSAL: PRODUCT—Unused product may be disposed of by securely wrapping original container in several layers of newspaper and discard in trash. **CONTAINER—**Replace cap and discard container in trash. Do not incinerate or puncture.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
