

Moss Control Plus 15-0-0

ORTHO

Controls Moss In Grass Lawns

**Provides A Fast Acting Source Of Nitrogen
That Helps Build Thick Green Grass**

Corrects Iron And Sulfur Deficiencies

Treats And Feeds 5000 Sq. Ft.

INGREDIENT STATEMENT AS A HERBICIDE

| Active Ingredients | By Wt. |
|---|--------|
| Ferrous Ammonium Sulfate and Ferric Ammonium Sulfate | 50% |
| Inert Ingredients | 50% |
| Total Iron | 9.3% |

GUARANTEED ANALYSIS

| | |
|--------------------------|------|
| Total Nitrogen (N) | 15% |
| Sulfur (S) | 22% |
| Iron (Fe) | 9.3% |

Fertilizer Nutrients from Ammonium Sulfate and Iron Ammonium Sulfate.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS AND DIRECTIONS.

KEEP BAG CLOSED WHEN NOT IN USE - STORE IN A DRY PLACE.

KEEP PESTICIDE IN ORIGINAL CONTAINER.

ORTHO Moss Control Plus is designed to perform 3 important functions.

1. Controls moss in grass lawns.
2. Provides a fast-acting source of Nitrogen that helps to build thick green grass.
3. Corrects and prevents chlorosis (yellowing) caused by Iron and Sulfur deficiencies giving prolonged greening response.

DIRECTIONS

When To Use —

ORTHO Moss Control Plus controls moss best when applied in the early spring when moss is actively growing and soil is moist.

NET WT. 34 LBS.

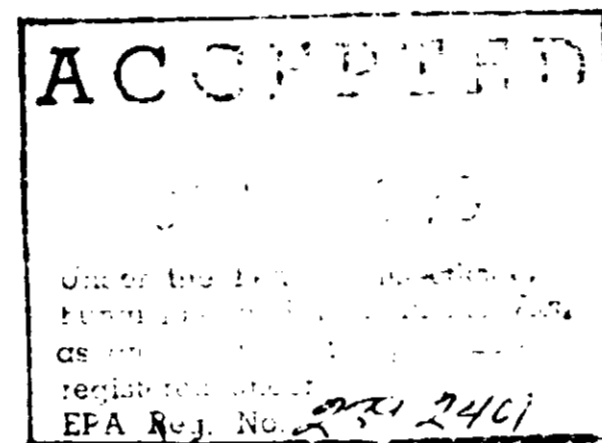

Chevron Chemical Company

Ortho Division/Sa. Francisco CA 94114 Richmond CA 94804

Product 5201 Made in U.S.A.

R Form 9189 A

EPA Reg. No. 239 2401

In areas where moss is prevalent in lawns, yearly applications may be necessary. In addition, ORTHO Moss Control Plus may be used anytime of the year (even if moss is not present) to supply the important nutrients Nitrogen, Sulfur and Iron needed to build healthy green lawns.

How To Use —

1. Rake lawn to remove leaves, dead grass and other debris.
2. Mow lawn to expose moss and allow fertilizer to enter soil readily.
3. Apply contents of this bag evenly to 5,000 sq. ft. (6.8 lbs. covers 1,000 sq. ft.) using an ORTHO WHIRLYBIRD, or two-wheeled spreader (see spreader settings). For best results, treat entire lawn. Do not spot treat.
4. Water thoroughly immediately after application to improve moss control and wash fertilizer particles off grass and down into soil.
5. Wash off sidewalks, driveways and painted surfaces as staining may occur. (See IMPORTANT).

READ THE LABEL

KEEP OUT OF REACH OF CHILDREN

CAUTION: Harmful if swallowed. Avoid inhalation. Avoid contact with eyes, open cuts or sores. Wash hands after use.

Note to Physicians: Emergency information call (415) 233-3131. Do not reuse container. Destroy when empty.

The effect of ORTHO Moss Control Plus becomes evident soon after treatment. The moss will turn black in color and a marked improvement in both color and vigor of the grass should occur. The dead moss will gradually disintegrate to add humus to the soil, or if extremely heavy, may be raked-up and removed. **IMPORTANT: ORTHO Moss Control Plus will stain cement if not swept or hosed off of curbs, sidewalks and driveways with water immediately after application.** Do not apply ORTHO Moss Control Plus when the soil is dry or lawn is showing signs of lacking water as injury may occur. Wash granules from foliage of lawn grass and border plants with water immediately after application.

FAST, EASY APPLICATION

ORTHO WHIRLYBIRD Spreader: Use setting No. 2. Apply 2 WHIRLYBIRDS full (6 lbs.) to 900 sq. ft. (25' x 36'). Start cranking the WHIRLYBIRD handle before depressing thumb lever. To insure complete coverage, spread in criss-cross pattern by applying the second WHIRLYBIRD full at right angles to the first. For application in confined areas and along border plantings, control of swath width can be obtained by holding the WHIRLYBIRD closer to the ground.

2-Wheel Spreader Setting: Spreader setting below is for covering lawns in one direction. **Do not use criss-cross pattern.** To insure complete coverage, overlap wheel tracks. When making turns, shut off spreader to avoid over-application. Variables inherent in equipment, as well as accuracy of machine adjustment, may cause actual application rates to deviate. Therefore, Chevron makes no warranty as to the uniformity of coverage to obtain from the settings listed below.

| Make of Spreader | Setting |
|--|---------|
| • ORTHO Lawn Spreader - 12 ft. swath | 5.5 |
| • Cyclone Lawn Spreader - 12 ft. swath | 5.5 |
| Scotts Model 75-3 - 24 inch | 4 1/4 |
| Scotts Model 35-3 - 18 inch | 4 1/4 |
| Sears - 19 inch | 7 |
| Wards Garden Mark 89-1081 - 20 inch | 4 |
| Jackson - 20 inch | 5 |

* Do not overlap wheel tracks on broadcast spreaders.
